Product Description

1.5 Liter Welded-side-seam Agrochemical, Liquid Fertilizer & Seed Tin Can MA

1.5 Liter Welded-side-seam Agrochemical, Liquid Fertilizer & Seed Tin Can MA is a welded metal package developed for agricultural products. Manufactured by Kontensan, it belongs to the Industrial and Chemical Tin Cans, Pails, and Drums main category and the Agrochemical, Liquid Fertilizer & Seed Tin Cans subcategory. Its 1.5-liter capacity, different filling openings and closure options allow packaging design to be adapted to individual products.

Technical features of the welded agricultural container

The mold family has a diameter of 105 mm and supports volumes from 0.3 to 2.3 liters. Metal thickness options include 0.22, 0.24, 0.25 and 0.28 mm. The 1.5-liter example, reference K017, has a height of 160 mm and a metal thickness of 0.24 mm. This configuration features a ring opening and a paint-style lid, with no internal or external coating. The body has no handle or reinforcing bead.

Closure selection for agrochemical and liquid fertilizer packaging

Production options include 32 and 42 mm filling openings, ring openings, Pratik closures, vented closures, a 43 mm screw closure and a 42 mm metal plug. Slip lids and open-top production are also available. Closure selection should consider filling line specifications, product usage and transport requirements. Internal coating options include Gold, pigment, clear and double lacquer, together with different seam coating applications. Chemical compatibility and leak resistance must be confirmed before filling.

Custom agricultural metal packaging for brands

Exterior enamel, lacquer and metal offset printing options allow packaging to be customized according to brand identity. Kontensan combines its manufacturing experience since 1980 with metal packaging and printing facilities in Konya and Istanbul. Product information, usage instructions and required warnings are considered in the print design. Final body, closure and coating specifications are confirmed before ordering.

Frequently Asked Questions - FAQ

Does the 1.5-liter agricultural container have a welded side seam?

Yes. The model features a welded side seam, which differs from the joint structure of the lock-seamed model.

Are vented closures available?

Yes. The technical specifications include 32 and 42 mm vented Pratik closure options.

Can the agricultural container be used for liquid fertilizers?

Suitability is determined after confirming the product formulation, coating, closure and leak resistance requirements.
