Product Description

1.2 Liter Candy Gift Tin Box

The 1.2 liter candy gift tin box EA is a decorative metal package designed for confectionery, dragee, Turkish delight, and similar products that need protection and gift-ready presentation. The source header uses 1.2 L in English and 1.2 L in Turkish, while the EA technical sheet identifies the product as a 1/2 L Candy Tin Box. The technical sheet lists an 87 mm diameter, 87 mm length, 36 mm main technical height, and an applicable capacity range of 0.25–1 liter. A slip lid, lock-seamed body, and decorative bead give the small-format package a simple but distinctive structure. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, and branded metal boxes. The phrase tin can may be used as a common search term, but the product is presented here as a candy gift tin box.

Key Features of the 1.2 Liter Candy Gift Tin Box

87 × 87 mm Size and 0.25–1 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The 87 × 87 mm body size and 36 mm main technical height create a compact format for small product presentations. The 0.25–1 L applicable capacity range supports different filling plans within the same mold family.

Slip Lid, Lock-Seamed Body and Decorative Bead

The technical sheet lists a slip lid, lock-seamed body, and decorative bead. No opening, handle, or hinge is listed. The decorative bead adds visual character to the small square body and supports gift-oriented and custom-printed confectionery packaging.

Decorative Coating and Offset Printing Options

Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, cream enamel, beige, clear lacquer, and decorative gold lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support branded candy tins, printed confectionery tins, and gift packaging designed around brand identity.

Source Note

The source header uses 1.2 L in both Turkish and English, while the technical sheet identifies the main product as a 1/2 L Candy Tin Box. The 36 mm main technical height also differs from the 80 mm actual product height listed for alternative L478. These values are preserved separately.

Frequently Asked Questions - FAQ

Is this product 1.2 L or 1/2 L?

The source header uses 1.2 L, while the technical sheet uses 1/2 L Candy Tin Box. Both values are preserved because both appear in the source.

What is the technical capacity range?

The EA technical sheet lists an applicable capacity range of 0.25–1 liter.

Which lid is used?

The source lists a slip lid.

Does the box have a decorative bead?

Yes. The technical sheet lists a decorative bead in the form / bead field.
