Product Description

1.2 L Cookies and Baklava Tin Box

The 1.2 L Cookies and Baklava Tin Box is a small metal box designed for baklava, cookies and syrup-based desserts with its compact cornered flat form. With a 120 × 120 mm cornered base and 34 mm height, it suits fill volumes ranging from 0.5 to 2 liters. This product belongs to the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Compact Cornered Baklava Tin

As one of the smallest square forms in the series, this baklava tin is ideal for a few slices, single gift sets and small-portion presentations. Its plain (cordon-free) surface offers an uninterrupted printing area; the slip-on lid gives easy opening and closing. It is also suitable for dry desserts such as cookies.

Uses

The cookies and baklava tin box suits dessert makers, patisseries and gift producers. With its small, economical structure, it stands out in single-gift and shelf presentations.

Printing and Coating Options

A printed baklava tin can be produced with a wide range of internal and external coatings such as silver lacquer, gold lacquer, enamel, pigment lacquer and decorative gold lacquer. The plain surface allows a full custom brand visual with metal offset printing.

Leak Resistance and Food Safety

The clinch-seam cornered body and food-grade lacquer systems support leak resistance and hygiene for syrup-based contents throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal dessert boxes from Türkiye to more than 30 countries. Production in a lower alternative mould such as 36 mm is also possible.

Frequently Asked Questions - FAQ

What is a small baklava box suitable for?

It suits a few slices, single gift sets and small-portion presentations. Its compact form takes up little shelf space.

How much dessert fits in a 1/2 liter baklava box?

With a height that varies, the mould offers filling from 0.5 to 2 liters. The amount varies with the type of baklava, cookies or syrup-based dessert.

Will syrup-based desserts leak?

The clinch-seam body and food-grade internal coating support leak resistance for syrup-based contents and help carry the content safely.

Can custom brand printing be applied?

Yes. With its plain surface and metal offset printing, festive, gift and custom-brand designs can be applied in full.
