Product Description

1.2 Liter Nuts Tin

The 1.2 liter nuts tin EM is a compact metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The product name is given as 1.2 L, while the EM technical sheet describes the product as 1/2 L. The sheet also states a 75 mm diameter, 100 mm length, and 36 mm mold height. Its volume line is written in the source as “0.25 - 1.4 ml”; this unit is kept as a source ambiguity rather than silently corrected. A slip lid and hinged structure keep the lid connected to the nuts tin during use, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or compact branded metal package.

Key Features of the 1.2 Liter Nuts Tin

Hinged Slip Lid for Practical Nuts Tin Use

This product is included in Kontensan’s Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The EM nuts tin combines a slip lid with a hinged structure. This keeps the lid connected to the package during opening and closing, which can support repeated use in retail and gift packaging.

Compact Lock-Seamed Nuts Tin Body

The 75 × 100 mm size and 36 mm mold height give the nuts tin a compact format. The technical sheet identifies the body as lock-seamed and states that no seam coating is applied. The product has no hole or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This structure keeps the nuts tin suitable for serial production.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 1.2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The hinged lid adds practical value, while the compact body supports smaller-format presentation. Offset printing turns the nuts tin into a visible brand communication surface. Kontensan combines lacquer and printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 1.2 liter nuts tin?

The EM technical sheet lists a 75 mm diameter, 100 mm length, and 36 mm mold height.

What volume information is given for this nuts tin?

The technical sheet writes the volume line as “0.25 - 1.4 ml”. The unit is preserved as written in the source because the source itself is ambiguous.

Does this nuts tin have a hinged lid?

Yes. The technical sheet lists the handle / hinge field as hinged and the lid type as slip lid.

Why is the product name different from the technical sheet description?

The source gives the product name as 1.2 Liter Nuts Gift Box EM, while the technical sheet describes the product as 1/2 L. Both source statements are kept separate in this content.
