Product Description

1.2 Liter Nuts Tin

The 1.2 liter nuts tin EQ is a compact metal food package designed to protect, transport, and present nuts and regional food products. The source gives the product name as 1.2 L, while the EQ technical sheet title uses 1/2 L. The same sheet states a 75 mm diameter, 75 mm length, 66 mm height, and an applicable volume range of 0.35–0.55 liters. For that reason, the product name, technical sheet title, and volume range should not be treated as the same value. A slip lid gives the nuts tin simple access, while the hinged design helps keep the lid connected to the package during use. The lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or compact branded metal package.

Key Features of the 1.2 Liter Nuts Tin

Hinged Slip Lid for Practical Nuts Tin Use

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The EQ nuts tin combines a slip lid with a hinged structure. This keeps the lid connected to the package during use and supports repeated opening and closing without separating the lid from the tin.

Compact Size and Lock-Seamed Nuts Tin Body

The 75 × 75 mm base keeps the nuts tin compact. The technical sheet identifies the body as lock-seamed and states that no seam coating is applied. The product has no hole or bead. Available metal thickness options are 0.22 mm, 0.24 mm, and 0.25 mm. This structure is suitable for small-format nut packaging, gift products, and retail nuts tin projects.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

This compact nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products in smaller portions. The hinged lid adds practical value, while offset printing turns the nuts tin into a visible brand communication surface. Kontensan combines lacquer and printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 1.2 liter nuts tin?

The EQ technical sheet lists a 75 mm diameter, 75 mm length, and 66 mm height. The alternative samples are 300 ml at 66 mm height and 500 ml at 92 mm height.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 0.35–0.55 liters for the EQ mold.

Does this nuts tin have a hinged design?

Yes. The technical sheet lists the handle / hinge field as hinged.

Why is the product name different from the technical sheet?
The source gives the product name as 1.2 L, the technical sheet title as 1/2 L, and the applicable volume range as 0.35–0.55 L. These source values are kept separate in this content.
