Product Description

1.2 Liter Nuts Tin

The 1.2 liter nuts tin FA is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The product name is given as 1.2 L, while the FA technical sheet describes the product as 1/2 L. The same sheet states a 103 mm diameter, 166 mm length, 36 mm mold height, and an applicable volume range of 0.5–3 liters. For that reason, the product name and technical sheet description should be kept separate. Crystal lid and slip lid options give the nuts tin two different presentation choices, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or compact branded metal package.

Key Features of the 1.2 Liter Nuts Tin

Crystal Lid and Slip Lid Options

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The FA nuts tin can use either a crystal lid or a slip lid. The crystal lid changes the presentation character of the package, while the slip lid offers a simpler and practical closing method. These options make the nuts tin suitable for different retail and gift packaging concepts.

Lock-Seamed Nuts Tin Body and Compact Size

The 103 × 166 mm size and 36 mm mold height give the nuts tin a compact format. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This structure keeps the nuts tin practical for serial production.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 1.2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The crystal lid gives the nuts tin a different presentation option, while the slip lid offers a simpler package format. Offset printing turns the metal surface into a visible brand communication area. Kontensan combines coating, printing, and lid options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 1.2 liter nuts tin?

The FA technical sheet lists a 103 mm diameter, 166 mm length, and 36 mm mold height.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 0.5–3 liters for the FA mold.

What lid options are available for this nuts tin?

The technical sheet lists crystal lid and slip lid options. The alternative 0.5 L samples show both lid types separately.

Why is the product name different from the technical sheet description?

The source gives the product name as 1.2 Liter Nuts Gift Box FA, while the technical sheet describes the product as 1/2 L. Both source statements are kept separate in this content.
