Product Description

1.4 Liter Candy Gift Tin Box

The 1.4 liter candy gift tin box EQ is a decorative metal package designed for confectionery, dragee, Turkish delight, and similar products that need protection and gift-ready presentation. The source header uses 1.4 L as the product name, while the EQ technical sheet identifies the product as a 1/4 L Candy Tin Box. The technical sheet lists a 75 mm diameter, 75 mm length, 66 mm height, and an applicable capacity range of 0.25–0.5 liters. A slip lid, hinged structure, and lock-seamed body create a compact format for small candy packaging. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, and branded metal boxes. The phrase tin can may be used as a common search term, but the product is presented here as a candy gift tin box.

Key Features of the 1.4 Liter Candy Gift Tin Box

75 × 75 mm Size and 0.25–0.5 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The 75 × 75 mm body size and 66 mm height create a compact package format for small product presentations. The 0.25–0.5 L applicable capacity range supports different filling plans within the same mold family.

Slip Lid and Hinged Structure

The technical sheet lists a slip lid and a hinged structure in the handle / hinge field. This helps keep the lid connected and supports practical use in small gift tins. No opening, form, or bead is listed.

Lock-Seamed Body and Decorative Printing

The body is lock-seamed and the source lists no seam coating. Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, cream enamel, beige, clear lacquer, and decorative gold lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support branded candy tins, printed confectionery tins, and gift packaging designed around brand identity.

Source Note

The source header uses 1.4 L as the product name, while the technical sheet identifies the main product as a 1/4 L Candy Tin Box. Both values are preserved because both appear in the source.

Frequently Asked Questions - FAQ

Is this product 1.4 L or 1/4 L?

The source header uses 1.4 L, while the technical sheet uses 1/4 L Candy Tin Box. Both values are preserved because both appear in the source.

What is the technical capacity range?

The EQ technical sheet lists an applicable capacity range of 0.25–0.5 liters.

Does the box have a hinge?

Yes. The technical sheet lists a hinged structure in the handle / hinge field.

Can the box be custom printed?

Yes. Offset printing is listed among the outer coating options, supporting custom-printed candy tin projects.
