Product Description

1.4 Liter Nuts Tin

The 1.4 liter nuts tin IA is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The product name is given as 1.4 L, while the IA technical sheet describes the product as 1/4 L. The same sheet states a 73 mm diameter, 37 mm mold height, and an applicable volume range of 0.15–1.1 liters. For that reason, the product name and technical sheet description are kept separate. The key technical feature of this nuts tin is its welded side-seam body with several seam coating options. A slip lid provides simple opening and closing. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or compact branded metal package.

Key Features of the 1.4 Liter Nuts Tin

Welded Side-Seam Nuts Tin Body

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The IA nuts tin uses a welded side-seam body. Seam coating options include lacquer inside and outside, powder lacquer inside with no outside lacquer, lacquer inside with no outside lacquer, powder lacquer inside with outside lacquer, no inside lacquer with outside lacquer, or no seam coating. These options give the nuts tin technical flexibility for different production projects.

Narrow Diameter and Slip Lid

The 73 mm diameter and 37 mm mold height give the nuts tin a narrow and compact base. The slip lid provides a simple closing method. The product has no hole, handle, hinge, or decorative bead. Available metal thickness options are 0.22 mm, 0.24 mm, and 0.25 mm.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 1.4 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its narrow diameter gives the nuts tin a compact shelf and carton footprint, while the welded side-seam body and multiple seam coating options allow technical adaptation for different packaging projects. Offset printing turns the metal surface into a visible brand communication area. Kontensan combines coating and printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 1.4 liter nuts tin?

The IA technical sheet lists a 73 mm diameter and 37 mm mold height. The alternative 250 ml sample product is listed with an actual height of 67 mm.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 0.15–1.1 liters for the IA mold.

Is this nuts tin welded side-seam?

Yes. The main IA technical definition identifies the body construction as welded side-seam. The alternative 250 ml sample in the source is lock-seamed, so these two source statements are kept separate.

Why is the product name different from the technical sheet description?

The source gives the product name as 1.4 Liter Nuts Gift Box IA, while the technical sheet describes the product as 1/4 L. Both source statements are kept separate in this content.
