Product Description

1 Liter Candy Gift Tin Box

The 1 liter candy gift tin box JH is a decorative metal package designed for confectionery, dragee, Turkish delight, chocolate, and similar products that need protection and gift-ready presentation. The JH technical sheet lists an 80 mm diameter, 120 mm length, 120 mm height, and an applicable capacity range of 1–2 liters. A slip lid, hinged structure, and lock-seamed body create a compact and practical package form. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, and branded metal boxes. The phrase tin can may be used as a common search term, but the product is presented here as a candy gift tin box.

Key Features of the 1 Liter Candy Gift Tin Box

80 × 120 mm Size and 1–2 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The 80 × 120 mm body size and 120 mm height create a narrow, vertical package format. The 1–2 L applicable capacity range supports different filling plans within the same mold family.

Slip Lid, Hinged Structure and Lock-Seamed Body

The technical sheet lists a slip lid, hinged structure, and lock-seamed body. No opening, form, or bead is listed. The hinge keeps the lid connected to the body, while the lock-seamed construction maintains the classic character of a metal confectionery tin.

Decorative Coating and Offset Printing Options

Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer plus lacquer, double pigment lacquer, cream enamel, beige, clear lacquer, cream lacquer, decorative gold lacquer, and grey lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support branded candy tins, printed confectionery tins, wholesale gift tins, and custom packaging designed around brand identity.

Source Note

The JH main technical row lists the handle / hinge field as hinged, while the L143 alternative product row lists this field as none. These values are preserved separately.

Frequently Asked Questions - FAQ

What is the capacity range of the 1 liter candy gift tin box?

The JH technical sheet lists an applicable capacity range of 1–2 liters.

Does the box have a hinge?

The main technical row lists the handle / hinge field as hinged, while alternative L143 lists this field as none.

Which lid is used?

The source lists a slip lid.

Can the box be custom printed?

Yes. Offset printing is listed among the outer coating options, supporting custom-printed candy tin projects.
