Product Description

1 Liter Cookies and Baklava Tin Box

The 1 liter cookies and baklava tin box AK is a metal food package designed to protect, present, and prepare cookies, baklava, and syrup-based desserts for branded retail sale. The product has a diameter of 114 mm, a length of 188 mm, and a height of 41 mm. The technical sheet states an applicable volume range of 0.8–2.6 L. Crystal lid and slip lid options support different presentation needs. For manufacturers looking for a cookies tin or baklava tin, this model provides a durable metal structure with flexible surface and printing options.

Key Features of the Cookies and Baklava Tin Box

Metal Body for Food Packaging

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. The available 0.24 mm and 0.25 mm metal thickness options create a strong body that helps the box keep its form. The lock-seamed body provides a clean and controlled structure. The product has no hole, handle, hinge, seam coating, or bead. This simple construction supports standard production for wholesale cookie tin and wholesale baklava tin orders.

Crystal Lid and Slip Lid Options

The product can be produced with a crystal lid or a slip lid. A crystal lid is useful when a brand wants the food inside the package to remain visible and become part of the product presentation. A slip lid gives the package a classic metal tin appearance and offers a simple opening and closing solution. These two lid options allow brands to choose a presentation style that matches cookies, baklava, and syrup-based desserts.

Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, and several multi-layer lacquer options. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options provide flexibility for printed baklava tins, gift cookie tins, and packaging projects designed around a brand identity. Kontensan combines metal offset printing with metal packaging production to support both function and visual presentation.

Applications

The 1 liter cookies and baklava tin box can be used for cookies, baklava, syrup-based desserts, boutique food products, and gift packaging. Its metal surface creates a strong area for branding when shelf presentation is important. Offset printing and different outer coating options allow the box to be adapted to a company's visual identity. This makes the product suitable for baklava tin manufacturers, dessert brands, pastry shops, and producers of special-edition food products that need a practical and customizable metal package.

Frequently Asked Questions - FAQ

What are the dimensions of the 1 liter cookies and baklava tin box?

The product has a diameter of 114 mm, a length of 188 mm, and a height of 41 mm. The technical sheet gives an applicable volume range of 0.8–2.6 L.

Which lid options are available?

The product can be produced with a crystal lid or a slip lid. The lid can be selected according to product presentation and packaging design.

Can custom printing be applied to the box?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the tin to be customized for the brand.

Which products can be packed in this tin box?

It can be used for cookies, baklava, syrup-based desserts, boutique food products, and gift food packaging.
