Product Description

1 Liter Cookies and Baklava Tin Box

The 1 liter cookies and baklava tin box is a metal packaging solution designed to protect, present, and prepare cookies, baklava, and syrup-based desserts for branded retail sale. Manufactured by Kontensan, this model has a 190 × 135 mm base, a height of 47 mm, and a volume of 1 liter. Its slip lid supports easy opening and closing. The product is suitable for manufacturers, pastry shops, dessert brands, and corporate gift projects looking for a cookies tin, baklava tin, or durable metal food box.

Key Features of the Cookies and Baklava Tin Box

Metal Structure for Food Packaging

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. The available 0.24 mm and 0.25 mm metal thickness options help the box keep its form and support durability during handling and transport. The product has no hole, handle, hinge, seam coating, or bead. Its lock-seamed body and slip lid provide a simple and practical packaging structure.

Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, and several multi-layer lacquer options. The outer surface can use offset printing, enamel, silver lacquer, gold lacquer, clear lacquer, or decorative gold lacquer. This flexibility allows wholesale cookie tin and wholesale baklava tin orders to be adapted to the visual identity of the brand. For printed baklava tins or gift cookie tins, the outer surface can become an important part of shelf presentation.

Applications and Brand Value

The 1 liter cookies and baklava tin box can be used for boutique cookies, baklava, syrup-based desserts, special-edition food products, and corporate gift sets. Because metal packaging can be reused, customers may continue to use the box for storage after the food is consumed. This can extend brand visibility, especially for premium and gift products. Kontensan combines different inner and outer coating options with serial production capability to provide food brands with a practical balance between technical needs and visual identity.

Frequently Asked Questions - FAQ

What are the dimensions of the 1 liter cookies and baklava tin box?

The box has a 190 × 135 mm base, a height of 47 mm, and a volume of 1 liter.

Can custom printing be applied to the box?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the packaging to be customized for the brand.

What type of lid does the product use?

The product uses a slip lid. This structure makes the package easy to open and close.

Which products can be packed in this tin box?

It is suitable for cookies, baklava, syrup-based desserts, special-edition food products, and gift food packages.
