Product Description

1 Liter Cookies and Baklava Tin Box

The 1 liter cookies and baklava tin box BY is a decorative metal food package designed to protect, transport, and present cookies, baklava, syrup-based desserts, and similar food products. For the BY mold, the technical sheet states a 205 mm diameter, 195 mm length, 45 mm height, and 1 liter volume. A slip lid provides simple opening and closing. The technical sheet also states that this model has no seam or lock-seam, which makes its construction different from standard seamed metal tins. Manufactured by Kontensan, this model is suitable for food brands looking for a cookies tin, baklava tin, or wide and low-profile branded metal package.

Key Features of the Cookies and Baklava Tin Box

Wide Decorative Metal Food Packaging

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. Its 205 × 195 mm size and 45 mm height create a wide, low-profile package form. The alternative 1 L sample product in the technical sheet is named Heart-Shaped Drawn Cookies and Baklava Tin Box, showing that this mold can also support decorative shaped packaging projects.

Slip Lid and Seamless Construction

The BY model uses a slip lid. The technical sheet states that there is no seam or lock-seam, and no seam coating is applied. The product also has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This simple structure keeps the visual form clean and supports decorative packaging designs.

Offset Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow logos, product visuals, and corporate colors to be applied to the wide metal surface.

Applications and Brand Value

The 1 liter cookies and baklava tin box can be used for cookies, baklava, syrup-based desserts, premium food products, regional specialties, and corporate gift sets. Its wide surface supports organized horizontal product presentation. Because the metal surface supports offset printing, the box can work as both protective packaging and a strong brand communication surface. Kontensan combines different lacquer and printing options with serial production capability, giving food brands a flexible decorative packaging solution.

Frequently Asked Questions - FAQ

What are the dimensions of the 1 liter cookies and baklava tin box?

The BY mold is listed with a 205 mm diameter, 195 mm length, and 45 mm height.

Does this model have a seam or lock-seam?

No. The technical sheet states that the seam / lock-seam field is none, and no seam coating is used.

Which lid is used?

The technical sheet lists a slip lid for this model.

Can custom printing be applied to the box?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the package to be customized for the brand and product series.
