Product Description

1 Liter Heart-Shaped Candy Gift Tin Box BY

The L688 – 1 Liter Heart-Shaped Candy Gift Tin Box BY is a decorative metal package with a heart-shaped design and a one-liter capacity. Kontensan offers this product under Food Tin & Metal Packaging in the Candy Gift Tin Boxes category. This gift candy tin can be used to present sweets, sugar-coated candies and small treats. Its heart shape gives gift collections a clear visual identity, especially when packaging is part of the product experience.

Heart-Shaped Candy Tin Dimensions and Technical Features

The technical sheet for mold BY lists a diameter of 205 mm, a length of 195 mm and a height of 45 mm. The L688 version has a capacity of 1 liter and uses 0.24 mm metal. An alternative thickness of 0.25 mm is also listed. This metal candy tin has a slip-on lid, with no hinge, handle or hole. The technical sheet states that the body has no seam or seamed joint, which makes it different from some other tin constructions. Buyers should check these dimensions against the size of the sweets they plan to pack.

Gold Lacquer and Printed Confectionery Tin Options

The L688 version has a gold lacquer finish on both the inside and outside. The technical sheet also includes silver, pigment, clear and other coating options. Offset printing is listed as an available external finish. Brands looking for a custom-printed candy tin or a metal candy box with a logo should confirm their artwork and coating choices before production. If the contents directly touch the package, the inner coating must be assessed for the intended food and contact conditions.

Who Should Choose Wholesale Candy Gift Tins?

This decorative confectionery tin may suit candy manufacturers, small gift brands and businesses producing collections for special occasions. For wholesale candy tin orders, buyers should agree on quantities, print files, coatings and sample approval. Candy tin prices may also depend on these production choices. A one-liter capacity does not guarantee a fixed weight in kilograms. Actual filling weight depends on product density and how the sweets are arranged in the box.

Frequently Asked Questions - FAQ

What are the dimensions of the 1-liter heart-shaped candy tin?

The L688 model is 205 mm in diameter, 195 mm long and 45 mm high, with a nominal capacity of 1 liter.

Does this heart-shaped candy gift tin have a hinge?

No. The L688 version uses a slip-on lid without a hinge, handle or hole.

Can a brand logo be printed on this candy tin?

The technical sheet lists offset printing as an external finish option. Printing, coatings and order details should be confirmed before production.
