1 Liter Mineral Oil Tin Cans Z5

Z5

Technical Specifications

Mold Code	Z5
Diameter	58
Length	115
Height	60 - 215
Volume	0.4 - 1.4 lt

Applicable Features

Kalınlık

0,24 mm · 0,25 mm · 0,22 mm

İç Kaplama

Silverlaklı · Puntalık Laklı · Çift Laklı · Pigment Laklı · Pigment Lak+Laklı · Çift Pigment Laklı · Krem Emaye Laklı · Bej Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Gri Laklı · Gold Laklı · Krem Laklı · Yok

Dış Kaplama

Silverlaklı · Gold Laklı · Çift Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Emaye · Ofset Baskılı · Yok

Delik

Ø24 mm · Ø32 mm

Kapak

Pratik 24 mm · Pratik 32 mm · Pratik 32 mm, Ventilli

Kulp

Yok

Kulp/Tapa Rengi

Mavi · Yeşil · Beyaz · Kırmızı · Siyah · Turuncu · Yok

Dikiş Kaplama

İçi Dışı Laklı · İçi Toz Laklı Dışı Laksız · İçi Laklı Dışı Laksız · İçi Toz Laklı Dışı Laklı · İçi Laksız Dışı Laklı · Yok

Forma / Kordon

Yok

Dikiş/Kenet

Dikişli

Product Description

1 Liter Mineral Oil Tin Cans Z5

1 Liter Mineral Oil Tin Cans Z5 is a family of metal containers designed for presenting mineral oils and lubricants in one-liter packaging. Kontensan offers this product within the Mineral Oil Tin Cans range under Industrial and Chemical Tin Cans, Pails, and Drums. The documented L086 model has a one-liter capacity, a finished height of 185 mm, 0.24 mm sheet metal and a red Pratik 32 mm closure. Its welded body has no carrying handle. The container should be selected with the dimensions of filling and shipping operations in mind.

Technical Features of the One-Liter Mineral Oil Container

The Z5 technical datasheet specifies a diameter of 58 mm, a length of 115 mm and a reference height range of 60–215 mm. The family covers volumes from 0.4 to 1.4 liters. Available sheet thicknesses are 0.22 mm, 0.24 mm and 0.25 mm, while the finished L086 model uses 0.24 mm sheet metal. The stated 185 mm height of L086 is not a fixed height for every Z5 container. When choosing metal packaging for motor oil, the correct finished dimensions affect both carton and pallet arrangements and filling equipment compatibility. Filling volume in liters should be considered separately from product weight in kilograms.

Pratik Closures and Coating Options for Lubricant Packaging

The L086 model has a 32 mm opening and a red Pratik 32 mm closure. No separate lacquer coating is specified for its inner surface, outer surface or seam. The container has no handle or additional body ribbing. The Z5 family also offers 24 mm and 32 mm openings, Pratik 24 mm and Pratik 32 mm closures, and a vented Pratik 32 mm option. Available family-level features include inner finishes such as silver, pigment, gold and clear lacquer, together with enamel and offset printed outer surfaces. These are not all standard features of L086. Compatibility with the lubricant formulation, leak protection requirements and any necessary transport approvals should be verified before ordering.

Wholesale Empty Motor Oil Cans and Custom Printing

When working with lubricant metal packaging manufacturers, closure configuration, sheet thickness, surface treatment and branding should be reviewed alongside unit price. Kontensan has manufactured metal packaging since 1980. Its facilities in Konya and Istanbul offer 25,000 square meters of indoor production space, and its metal offset printing equipment supports custom printed lubricant containers in suitable production configurations. The company exports to more than 30 countries. Wholesale empty motor oil can prices may vary according to capacity, printing scope, order quantity and technical specifications. For an accurate quotation, share the target filling volume, product characteristics, closure requirements and brand design together.

Frequently Asked Questions - FAQ

What is the height of the one-liter mineral oil container?

The finished L086 model is 185 mm high and uses 0.24 mm sheet metal.

Which closure is used on this mineral oil container?

L086 has a 32 mm opening and a red Pratik 32 mm closure.

Can mineral oil containers be custom printed?

Offset printed exterior finishes are available within the Z5 family. Custom printing conditions for L086 must be confirmed separately.
