1 Liter Paint & Thinner Tin Can KA

KA

Technical Specifications

Mold Code	KA
Diameter	83
Height	37
Volume	0.2 - 1.5 lt

Applicable Features

Kalınlık

0,24 mm · 0,25 mm · 0,22 mm

İç Kaplama

Silverlaklı · Puntalık Laklı · Çift Laklı · Pigment Laklı · Pigment Lak+Laklı · Çift Pigment Laklı · Krem Emaye Laklı · Bej Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Gri Laklı · Gold Laklı · Krem Laklı · Yok

Dış Kaplama

Silverlaklı · Gold Laklı · Çift Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Emaye · Ofset Baskılı · Yok

Delik

Ø32 mm · Ø42 mm · Çember

Kapak

Pratik 32 mm · Pratik 42 mm · Pratik 42 mm, Ventilli · Pratik 42 mm, Pütür · Pratik 43 mm Vidalı · Ø42 Metal Tapa · Pratik 32 mm, Ventilli · Yok (Ağzı Açık) · Boya Kapağı

Kulp

Yok

Kulp/Tapa Rengi

Yok

Dikiş Kaplama

İçi Dışı Laklı · İçi Toz Laklı Dışı Laksız · İçi Laklı Dışı Laksız · İçi Toz Laklı Dışı Laklı · İçi Laksız Dışı Laklı · Yok

Forma / Kordon

Yok

Dikiş/Kenet

Dikişli

Product Description

1 Liter Paint & Thinner Tin Can KA

1 Liter Paint & Thinner Tin Can KA is a metal packaging family offering different openings and closures for manufacturers seeking

one-liter thinner and paint containers. Kontensan offers this product in the Paint & Thinner Tin Can range under Industrial and Chemical Tin Cans, Pails, and Drums. The two documented one-liter models in the KA family, L955 and L937, are specified for thinner. L955 has a closure and a silver lacquered exterior, while L937 is open at the top and has no exterior coating. This distinction matters when planning the filling line and closing process.

Body Dimensions and Sheet Metal for One-Liter Thinner Containers

The KA mold family has a reference diameter of 83 mm, a reference height of 37 mm and a capacity range of 0.2–1.5 liters. Sheet metal options of 0.22 mm, 0.24 mm and 0.25 mm are listed for this family. The finished L955 model is 217 mm high, while L937 is 215 mm high; both use 0.24 mm sheet metal. Their bodies are welded and have no handle or additional body ribbing. These finished heights differ from the mold reference height. When ordering empty paint tins and thinner containers, consider finished dimensions, storage space and shipping cartons as well as filling capacity.

Pratik 42 mm Closure and Open-Top Alternative

The L955 thinner container has a 42 mm opening, a Pratik 42 mm closure and a white closure color. It has no inner coating, while its exterior is silver lacquered, with no separate seam coating. L937 has no separate opening or closure specified and is recorded as an open-top container. It also has no inner or outer coating. It would be inaccurate to present this open-top model as a finished consumer package with a lid. The KA family also lists Pratik 32 mm, vented and textured Pratik 42 mm, screw-type Pratik 43 mm and ring-type paint lid options. When selecting metal paint tins with lids, chemical compatibility between the contents, closure and inner surface must be confirmed separately.

500 and 600 ml Paint-Thinner Containers and Wholesale Manufacturing

The same mold family includes the 600 ml L890 thinner container, which is 120 mm high and has a Pratik 32 mm closure. The 500 ml K067 thinner container is 99 mm high and has a Pratik 42 mm closure. The 500 ml L302 model, specified for paint, is 94 mm high and features a ring-type paint lid. All three use 0.24 mm sheet metal. Kontensan has manufactured metal packaging since 1980. Its 25,000 square meters of indoor production space in Konya and Istanbul and metal offset printing facilities support custom printed paint packaging orders in suitable configurations. For metal paint container manufacturers, wholesale empty paint cans pricing depends on sheet thickness, closure type, printing, surface coating and order quantity. Share your product composition and target order volume to request a manufacturing quotation.

Frequently Asked Questions - FAQ

What is the height of the one-liter thinner container?

L955 with a Pratik 42 mm closure is 217 mm high; open-top L937 is 215 mm high.

Which one-liter thinner model has a silver lacquered exterior?

L955 has a silver lacquered exterior. L937 has no inner or outer coating.

Is a 500 ml paint container available in the same family?

Yes. L302 is a 500 ml paint container, 94 mm high, with a ring-type paint lid.
