Product Description

1 Liter Slip Lid Cookies and Baklava Tin Box
The 1 liter slip lid cookies and baklava tin box LA is a compact metal food package designed to protect, transport, and present cookies, baklava, syrup-based desserts, and similar food products. For the LA mold, the technical sheet states a diameter of 99

mm and a mold height of 38 mm. The same mold supports an applicable volume range of 0.3–2.2 liters. Crystal lid and slip lid options support different presentation needs, while the lock-seamed body provides a clean structure suitable for serial production. Manufactured by Kontensan, this model is suitable for food brands looking for a cookies tin, baklava tin, or compact branded metal package.

Key Features of the Slip Lid Cookies and Baklava Tin Box

Crystal Lid or Slip Lid Options

The LA mold supports both crystal lid and slip lid options. A crystal lid can provide a different presentation style, while a slip lid offers simple and practical use. The 1 L sample product is listed with a slip lid in the technical sheet, so the sample configuration is kept separate from the general mold options.

Lock-Seamed Metal Food Packaging

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. Available metal thickness options are 0.22 mm, 0.24 mm, and 0.25 mm. The body construction is lock-seamed and no seam coating is applied. The product has no hole, handle, hinge, or bead.

Offset Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer.

Applications and Brand Value

The 1 liter slip lid cookies and baklava tin box can be used for cookies, baklava, syrup-based desserts, premium food products, regional specialties, and corporate gift sets. Its 99 mm diameter creates a narrow and taller package form. Because the metal surface supports offset printing, the box can work as both protective packaging and a strong brand communication surface. Kontensan combines lid, lacquer, and printing options with serial production capability, giving food brands a flexible solution for small-volume packaging.

Frequently Asked Questions - FAQ

What are the dimensions of the 1 liter slip lid cookies and baklava tin box?

The LA mold is listed with a diameter of 99 mm and a mold height of 38 mm. The 1 L sample product is listed with a height of 130 mm.

What is the applicable volume range of the LA mold?

The technical sheet states an applicable volume range of 0.3–2.2 liters for the LA mold.

Which lid options are available?

The technical sheet lists crystal lid and slip lid options. The 1 L sample product uses a slip lid.

Is this model lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
