Product Description

1 L Tea and Coffee Tin

The 1 L Tea and Coffee Tin is a decorative metal tea tin that stands out with its oval form. With a 149 × 74 mm base and 78 mm height, it has a fill volume of 0.8 liters (800 ml). This product belongs to the Tea, Coffee, and Hot Flavor Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

The Advantage of the Oval Tea and Coffee Tin

This tea tin offers a design that stands out on the shelf and is comfortable to hold, thanks to its oval body. Its classic, nostalgic look is ideal for tea and coffee as well as gift presentations. As a printed coffee tin, it gives a brand a premium shelf value.

Why Choose a Metal Tea and Coffee Tin?

Tea and coffee lose their aroma quickly when exposed to light, moisture and oxygen. A metal tea tin protects the content with its opaque body, while the slip-on lid reduces air contact and supports freshness. A metal coffee tin provides both protection and an elegant presentation.

Printing and Coating Options

A printed tea tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. The oval surface allows custom brand designs to be applied elegantly with metal offset printing.

Durability and Food Safety

The clinch-seam body and food-grade lacquer systems support durability and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal tea and coffee tins from Türkiye to more than 30 countries. Production in different sizes and forms is also possible.

Frequently Asked Questions - FAQ

Why is an oval tea and coffee tin preferred?

The oval form gives a distinctive shelf look and a comfortable grip. Its decorative structure is preferred for premium tea, coffee and gift presentations.

How much tea or coffee fits in a 0.8 liter tin?

Capacity depends on the product's density. The 0.8 liter volume suits single-serve presentation of tea or coffee.

Can printed, custom-brand oval tins be produced?

Yes. With metal offset printing and various lacquer options, custom, printed oval tea and coffee tins can be produced.

Why does a tin box protect tea and coffee?

The metal body blocks light completely and is durable against external factors, while the slip-on lid reduces air contact. In this way, the freshness of the content is supported.
