Product Description

1 L Tea and Coffee Tin

The 1 L Tea and Coffee Tin is a metal tea tin that stands out with its round body and rich lid options. With a Ø105 mm diameter and 36 mm body height, it suits fill volumes ranging from 0.3 to 2.3 liters. This product belongs to the Tea, Coffee, and Hot Flavor Tin

Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Dome and Crystal-Lid Tea and Coffee Tin

This tea tin can be produced with dome, crystal (clear-window) and slip-on lid options. The dome lid adds height and a premium look, while the crystal lid keeps the content visible. The wire-clip mechanism provides a tight closure. This flexibility makes the coffee tin suitable for both display and gift presentation.

Why Choose a Metal Tea and Coffee Tin?

Tea and coffee lose their aroma quickly when exposed to light, moisture and oxygen. A metal tea tin protects the content with its opaque body, while the lid options reduce air contact and support freshness. A metal coffee tin provides both protection and an eye-catching presentation.

Printing and Coating Options

A printed tea tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. Metal offset printing applies a custom brand design to the body, while the dome and crystal lid options add extra value to the presentation.

Durability and Food Safety

The clinch-seam body and food-grade lacquer systems support durability and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal tea and coffee tins from Türkiye to more than 30 countries. Production in alternative moulds such as 150 mm is also possible.

Frequently Asked Questions - FAQ

What is a dome lid?

A dome lid is a raised, dome-shaped lid on top of the tin. It gives the product volume and a premium look and is preferred in gift presentations.

Which lids does this tea and coffee tin come with?

Crystal (clear), dome and slip-on lid options are offered; a tight closure can be provided with the wire-clip mechanism.

How much product fits in a 0.3–2.3 liter tin?

Capacity depends on the product's density and the chosen lid. This range suits single-serve and medium-volume tea and coffee presentations.

Is it suitable for gift and premium presentation?

Yes. With its dome and crystal lid options, it stands out as a display and premium gift tea and coffee tin.
