Product Description

1 Liter Vegetable Oil Tin Can Z5

The 1 Liter Vegetable Oil Tin Can is the smallest size in the series, a seamed metal oil tin with a slim, elongated body. With a 58 × 115 mm base and 60 mm height, it suits fill volumes ranging from 0.4 to 1.4 liters. This product belongs to the Vegetable Oil Tin Can series under Kontensan's Food Tin & Metal Packaging main category.

Where Is the 1 Liter Vegetable Oil Tin Can Used?

This small-volume oil tin suits premium and boutique oils, single-unit consumer packaging, samples and gift presentations. Its slim body gives an elegant look on the shelf. Kontensan 1 liter vegetable oil tin can can be produced for liquid oils such as sunflower, corn, and olive oil; the food-grade internal coating keeps the oil fresh.

Coating and Printing Options

This oil tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. Ø24 and Ø32 mm holes with practical or vented caps give controlled pouring for small volumes. Metal offset printing is ideal for brand-specific designs that strengthen the shelf presence of premium oils.

Durability and Food Safety

Seam coating options and food-grade lacquer systems support leak resistance and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies oil tins from Türkiye to more than 30 countries. Alternative moulds, such as another 1 liter oil tin, can also be produced to fit your needs.

Frequently Asked Questions - FAQ

How many kilograms of oil does a 1 liter oil tin hold?

Liquid oils have a density of about 0.91 kg per liter, so 1 liter of oil weighs roughly 0.9 kg. The tin suits a 0.4–1.4 liter fill range, so the weight varies with the fill amount.

Which hole and cap options does the 1 liter vegetable oil tin can come with?

It offers Ø24 and Ø32 mm holes with practical or vented practical caps. The small Ø24 opening gives controlled pouring for low-volume products.

What uses is the smallest oil tin suitable for?

It suits small-volume uses such as premium and boutique oils, sample presentations and gift sets.

Is it suitable for olive oil?

Yes. Thanks to its food-grade internal coating options, it is suitable for olive oil and other liquid vegetable oils.
