## Product Description

1 Liter Welded Side-Seam Cookies and Baklava Tin Box

The 1 liter welded side-seam cookies and baklava tin box LA is a compact metal food package designed to protect, transport, and present cookies, baklava, syrup-based desserts, and similar products. For the LA mold, the technical sheet states a diameter of 99 mm and a mold height of 38 mm. The same mold supports an applicable volume range of 0.3–2.2 liters. This model has a welded side-seam body, and several inside and outside seam-coating combinations are available. Lid options include easy-open aluminum, open-top, crystal lid, and slip lid. Manufactured by Kontensan, this model is suitable for food brands looking for a cookies tin, baklava tin, or compact branded metal package with flexible technical finishing.

Key Features of the Welded Side-Seam Tin Box

Welded Side-Seam Body and Seam Coating Options

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. Available metal thickness options are 0.22 mm, 0.24 mm, and 0.25 mm. The body construction is welded side-seam. The technical sheet lists several seam-coating options, including lacquered inside and outside, powder-lacquered inside with uncoated outside, lacquered inside with uncoated outside, powder-lacquered inside with lacquered outside, uncoated inside with lacquered outside, or no seam coating.

Easy-Open Aluminum and Alternative Lid Options

The LA mold supports easy-open aluminum, open-top, crystal lid, and slip lid options. The 1 L sample product is listed with an easy-open aluminum lid. This option supports fast first opening and creates a different packaging experience compared with standard slip or crystal lids.

Offset Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer.

Applications and Brand Value

The 1 liter welded side-seam cookies and baklava tin box can be used for cookies, baklava, syrup-based desserts, premium food products, regional specialties, and corporate gift projects. Its 99 mm diameter creates a narrow and taller package form. The welded side-seam body and multiple lid options make it possible to build different packaging scenarios within the same mold family. Because the outer surface supports offset printing, the package can also work as a strong brand communication surface. Kontensan combines lacquer, printing, and seam-coating options with serial production capability.

Frequently Asked Questions - FAQ

What are the dimensions of the 1 liter welded side-seam tin box?

The LA mold is listed with a diameter of 99 mm and a mold height of 38 mm. The 1 L sample product is listed with a height of 128 mm.

What is the applicable volume range of the LA mold?

The technical sheet states an applicable volume range of 0.3–2.2 liters for the LA mold.

Which lid options are available?

The technical sheet lists easy-open aluminum, open-top, crystal lid, and slip lid options. The 1 L sample product uses an easy-open aluminum lid.

Is this model welded side-seam?

Yes. The technical sheet identifies the body construction as seamed, and the product is defined as a welded side-seam model.
