Product Description

10 Liter Vegetable Oil Tin Can CA

The 10 Liter Vegetable Oil Tin Can is a seamed metal oil tin that stands out with its compact body and wide fill range. With a 198 mm diameter and 170 mm height, it suits fill volumes ranging from 6 to 12 liters. This product belongs to the Vegetable Oil Tin Can series under Kontensan's Food Tin & Metal Packaging main category.

Key Highlights of the 10 Liter Vegetable Oil Tin Can

The wide 6–12 liter fill range fits different fill weights with a single mould. The 0.25 mm sheet option offers a lighter, more economical package for producers who need it. The optional Ø129 wide-mouth (bonbon) lid enables easy filling and full emptying. It is suitable for liquid oils such as sunflower, corn, canola and olive oil.

Technical Specifications and Dimensions

The table below shows the core technical values and configurable options of the 10 liter vegetable oil tin can. Its seamed body and food-grade internal coating limit the oil's contact with light, keeping it fresh.

Coating, Cap and Printing Options

This oil tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. Ø32, Ø42 and Ø129 mm holes with practical, vented, threaded or bonbon cap options let you configure it for your filling line. With metal offset printing, a custom brand design is applied to the outer surface.

Durability and Food Safety

Seam coating options and food-grade lacquer systems support leak resistance and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies oil tins from Türkiye to more than 30 countries. Alternative sizes, such as an 11 liter oil tin, can also be produced to fit your needs.

Frequently Asked Questions - FAQ

What fill range does this 10 liter vegetable oil tin can suit?

The product suits fill volumes from 6 to 12 liters; the nominal size is 10 liters. This wide range covers different fill weights with a single mould.

What advantage does the wide-mouth (Ø129) option offer?

The Ø129 bonbon lid provides a wide opening for easy filling and full emptying, adding practicality for thicker products and fast filling lines.

Which sheet thicknesses is this tin produced in?

It is produced in 0.25 and 0.28 mm sheet thickness. The 0.25 mm option provides a lighter, more economical package.

Is it suitable for olive oil and other oils?

Yes. Thanks to its food-grade internal coating options, it is suitable for olive oil and other liquid vegetable oils.
