15 Liter Olives and Pickles Tin Pails AA

AA

Technical Specifications

Mold Code	AA
Diameter	232
Length	232
Height	170
Volume	9 - 21 lt

Applicable Features

Kalınlık

0,28 mm · 0,30 mm · 0,32 mm

İç Kaplama

Silverlaklı · Gold Laklı · Puntalık Laklı · Çift Laklı · Pigment Laklı · Pigment Lak+Laklı · Çift Pigment Laklı · Krem Emaye Laklı · Bej Laklı · Şeffaf Laklı · Krem Laklı · Dekoratif Gold Laklı · Gri Laklı · Yok

Dış Kaplama

Silverlaklı · Gold Laklı · Emaye · Çift Laklı · Ofset Baskılı · Şeffaf Laklı · Dekoratif Gold Laklı · Yok

Delik

Ø135 mm

Kapak

Ø135 Bonbon · Sibop

Kulp / Menteşe

Yok

39

Yok

Dikiş/Kenet

Dikişli

Dikiş Kaplama

İçi Dışı Laklı · İçi Toz Laklı Dışı Laksız · İçi Laklı Dışı Laksız · İçi Toz Laklı Dışı Laklı · İçi Laksız Dışı Laklı · Yok

Forma / Kordon

Yağ Forma+Köşe · Peynir Forma+Köşe

Product Description

15 Liter Olives and Pickles Tin Pails AA

15 Liter Olives and Pickles Tin Pails AA are metal packaging options for filling, storing and transporting olives in brine and pickled foods. Kontensan offers this product within Olives, and Pickles Tin Cans under Food Tin & Metal Packaging. Choosing an empty olive tin requires more than checking its volume. Salt and acid levels in the brine, a suitable internal coating, the closing system and filling equipment must all be considered.

What Are the Dimensions of the 15 Liter Olive Tin?

The AA mold datasheet gives a body diameter and length of 232 mm, with a reference height of 170 mm. The mold family covers capacities from 9 to 21 liters. However, the finished L831 olive and pickle tin has a height of 290 mm. This 15-liter version has 0.28 mm metal, a seamed body, a 135 mm opening and a matching bonbon-style lid. Its interior has pigment lacquer plus an additional lacquer layer, while the exterior has gold lacquer. The product sheet also lists a shaped reinforcement and corners.

Why Does the Internal Coating Matter for Brined Olives?

For brined olive packaging and empty pickle tins, the internal coating is important because it touches the food. Salt, acidity and storage time can affect the correct lacquer choice. The AA mold family lists 0.28, 0.30 and 0.32 mm metal and several internal and external coating options. These are family-level choices and are not all standard on L831. Food-contact suitability should be checked against the actual recipe before production.

Wholesale Empty Olive Tins and Custom Printing

When ordering wholesale empty olive tins, buyers should define the lid size, metal thickness, seam coating, internal lacquer and printing requirements. The AA family offers exterior offset printing, but the selected configuration for L831 must be confirmed. When comparing empty olive tin manufacturers, price alone is not enough. Sample filling, closure compatibility and transport conditions are important purchasing factors.

Does a 15 Liter Tin Hold 15 Kilograms of Olives?

A search for a 15 kg olive tin does not automatically mean a 15-liter container. Olive size, brine quantity and the space left during filling affect the final weight. A filling test with the real product is needed to confirm the right capacity.

Frequently Asked Questions - FAQ

What is the height of the 15-liter olive and pickle tin?

The finished L831 15-liter version is 290 mm high. The 170 mm value in the mold sheet is a reference dimension for the family.

What lid does the 15-liter olive tin use?

The L831 version has a 135 mm opening and matching bonbon-style lid. It has no handle.

Can the 15-liter metal tin be used for pickles?
It may be considered for pickles, but the inner coating must be confirmed as suitable for the product's salt and acid levels before filling.
