18 Liter Paint & Thinner Tin Can AA

AA

Technical Specifications

Mold Code	AA
Diameter	232
Length	232
Height	170
Volume	9 - 21 lt

Applicable Features

Kalınlık

0,28 mm · 0,30 mm · 0,32 mm · 0,38 mm

İç Kaplama

Silverlaklı · Puntalık Laklı · Çift Laklı · Pigment Laklı · Pigment Lak+Laklı · Çift Pigment Laklı · Krem Emaye Laklı · Bej Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Gri Laklı · Gold Laklı · Krem Laklı · Yok

Dış Kaplama

Silverlaklı · Gold Laklı · Çift Laklı · Şeffaf Laklı · Dekoratif Gold Laklı · Emaye · Ofset Baskılı · Yok

Delik

Ø32 mm · Ø39 mm · Ø42 mm · Ø56 mm · Ø70 mm

Kapak

Pratik 32 mm · Pratik 42 mm · Pratik 42 mm, Ventilli · Pratik 42 mm, Pütür · Pratik 43 mm Vidalı · Pratik 56 mm · Pratik 56 mm Sıkma · Pratik 56 mm Ventilli · Düz 40 mm Kulaklı · Ø39 Metal Tapa · Ø42 Metal Tapa · Ø56 Metal Tapa · Ø70 Metal Tapa · Pratik 32 mm, Ventilli · Düz 41 mm · Sibop

Kulp

Plastic

Kulp/Tapa Rengi

Mavi · Yeşil · Beyaz · Kırmızı · Siyah · Turuncu · Yok

Dikiş Kaplama

İçi Dışı Laklı · İçi Toz Laklı Dışı Laksız · İçi Laklı Dışı Laksız · İçi Toz Laklı Dışı Laklı · İçi Laksız Dışı Laklı · Yok

Forma / Kordon

Yağ Forma+Köşe · Peynir Forma+Köşe

Dikiş/Kenet

Product Description

18 Liter Paint & Thinner Tin Can AA

18 Liter Paint & Thinner Tin Can AA is a metal container within the AA mold family for industrial paint and thinner packaging requirements. Kontensan offers this product in Paint & Thinner Tin Can under Industrial and Chemical Tin Cans, Pails, and Drums. The L083 model, specified for thinner, provides an industrial filling option with an 18-liter capacity, 0.38 mm sheet metal, an enamel exterior and a Pratik 42 mm closure. Chemical compatibility of any configuration intended for paint filling should be assessed separately.

Technical Features of the 18-Liter Paint Container

The AA mold family has two listed horizontal reference dimensions of 232 mm, a reference height of 170 mm and a capacity range of 9–21 liters. The finished L083 model has a height of 350 mm, a sheet metal thickness of 0.38 mm and a capacity of 18 liters. The 0.28 mm, 0.30 mm and 0.32 mm thickness options within the mold family differ from the standard thickness of this model. A welded side seam is listed in the mold family specifications. The L083 body has a profile identified in the product record as an oil-style shape. When ordering empty paint tins, buyers should verify the compatibility of finished dimensions with filling equipment and shipping arrangements before production.

Pratik Closure, Enamel Exterior and Plastic Handle

The L083 thinner tin features a 42 mm opening, a Pratik 42 mm closure and a yellow plastic handle. Its exterior has an enamel finish, with no inner coating or separate seam coating. This design differs from internally lacquered metal paint tins. Different opening diameters, vented closures, metal plugs and surface finishes can be considered within the same mold family. However, these are not standard features of L083. When selecting a container with a closure, buyers should consider solvent composition, closure material and leak resistance requirements together. Required packaging suitability and approvals for dangerous goods transport must be confirmed separately.

Wholesale Empty Paint Cans and Custom Printing Options

The AA family also includes the 12-liter L742 thinner container. This alternative has a height of 235 mm, 0.28 mm sheet metal, a Pratik 42 mm closure and a red plastic handle. It has no inner or outer coating. Kontensan has manufactured metal packaging since 1980. With 25,000 square meters of indoor production space in Konya and Istanbul and metal offset printing lines, it can assess custom printed paint packaging requests for suitable configurations. Printing is not a documented standard feature of L083. When comparing paint tin manufacturers, consider capacity, metal thickness, surface finish, closure system and order quantity together. Share your technical requirements with Kontensan to request a quotation for suitable wholesale metal paint containers.

Frequently Asked Questions - FAQ

What is the metal thickness of the 18-liter thinner container?

L083 uses 0.38 mm sheet metal and has a finished height of 350 mm.

Which closure and coating does the thinner container use?

L083 has a Pratik 42 mm closure, an enamel exterior and a yellow plastic handle. It has no inner coating.

What determines empty paint tin prices?

Prices depend on capacity, metal thickness, closure, coating, printing preferences and order quantity.
