Product Description

18 Liter Vegetable Oil Tin Can

The 18 Liter Vegetable Oil Tin Can is a seamed metal package designed for high-volume industrial filling. With a 232 mm diameter and 170 mm height, it suits fill volumes ranging from 9 to 21 liters. This product belongs to the Vegetable Oil Tin Can series under Kontensan's Food Tin & Metal Packaging main category.

Who Is the 18 Liter Vegetable Oil Tin Can Suitable For?

It is ideal for producers who pack liquid oils such as sunflower, corn, cottonseed and canola in bulk. Thanks to its seamed body and food-grade internal coating options, it limits the oil's contact with oxygen and light, keeping it fresh. With a nominal size of 18 liters, it offers flexibility on filling lines with varying volumes. Its cornered form structure keeps filled cans neatly stacked on pallets and in storage.

Technical Specifications and Dimensions

The table below shows the core technical values and configurable options of the 18 liter vegetable oil tin can. Sheet thickness can be selected in the 0.28–0.32 mm range as needed.

Coating, Cap and Printing Options

This vegetable oil tin can can be produced with different internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. Hole sizes from Ø32 mm to Ø129 mm and practical, threaded or vented cap options let you configure it for your filling line. With metal offset printing, a custom brand design is applied to the outer surface.

Durability and Food Safety

Seam coating options and food-grade lacquer systems support leak resistance and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies vegetable oil tin cans from Türkiye to more than 30 countries. Alternative sizes, such as a 12-liter cottonseed oil can and an 18-liter sunflower oil can, can also be produced to fit your needs.

Frequently Asked Questions - FAQ

What is the fill volume of the 18 liter vegetable oil tin can?

The product suits fill volumes ranging from 9 to 21 liters; the nominal size is 18 liters.

Which oils is this tin can used for?

It is used for liquid vegetable oils such as sunflower, corn, cottonseed and canola, as well as similar food products.

What cap and hole options are available?

Hole sizes from Ø32 mm to Ø129 mm and various caps such as practical, threaded and vented are offered.

Can a custom brand print be applied to the package?

Yes. A custom brand design can be applied to the outer surface with our metal offset printing lines.
