Product Description

2.5 Liter Bone-Shaped Candy Gift Tin Box

In a market where many packages look similar on the shelf, shape can directly influence brand perception. The 2.5 L bone-shaped model produced by Kontensan is part of the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes group. For brands looking for a distinctive candy tin, the bone-shaped form creates a stronger visual identity than standard square or round boxes.

The product measures 260 × 210 × 50 mm, and the technical datasheet gives a volume range of 2.5–3.8 liters. It can be produced with 0.24 mm or 0.25 mm metal thickness. The slip lid keeps opening and closing simple, while the seamed construction supports the integrity of the body. This structure makes the box suitable for brands seeking a decorative confectionery tin that combines presentation value with practical product protection.

Printed Candy Tin Packaging for Stronger Shelf Impact

The outer surface can use offset printing, silver lacquer, gold lacquer, enamel, double lacquer, clear lacquer or decorative gold lacquer. This allows the candy tin to match a brand's colors and visual language. Custom printed packaging can carry logos, product graphics and campaign designs directly on the box. For premium candy, Turkish delight, dragée, chocolate and corporate gift sets, a branded candy tin can can turn the package into a visible part of the product experience.

Which Products Are Suitable for This Confectionery Tin?

This metal confectionery package can be considered for candy, Turkish delight, chocolate, dragée, local specialties and gift food sets. The inner surface can use silver lacquer, gold lacquer, pigment lacquer, cream enamel lacquer, beige lacquer and other protective coating options. The correct coating should be selected according to the filled product and production requirements. For wholesale candy tin orders and custom projects, printing, coating and production details are defined according to the order needs.

Frequently Asked Questions - FAQ

What are the dimensions of the 2.5 L candy tin box?

The product measures 260 × 210 × 50 mm. The technical datasheet gives a volume range of 2.5–3.8 liters and a metal thickness of 0.24 mm or 0.25 mm.

Can custom printing be applied to the bone-shaped box?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing logos, corporate colors and custom graphics to be added.

What type of lid and body construction does the box use?

The product uses a slip lid and a seamed body construction. It has no handle or hinge.
