Product Description

2.5 Liter Candy Gift Tin Box BV

The L456 – 2.5 Liter Candy Gift Tin Box BV is a heart-shaped decorative metal package designed to present gift confectionery. Made by Kontensan, it belongs to the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes collection. For brands looking for a gift candy tin, its design offers a visual identity that stands apart from standard boxes.

Heart-Shaped Candy Tin Dimensions and Construction

The general technical sheet for mold BV lists a diameter of 233 mm, a length of 233 mm and a height of 40 mm. However, the 2.5-liter L456 version is listed with a height of 61 mm. L456 uses 0.24 mm metal, a seamed body and a slip-on lid without a hinge. It has no hole or handle. Buyers of a lidded confectionery tin should check the dimensions of the specific version rather than relying only on the general mold specifications.

Printed Candy Tin and Surface Coating Options

The L456 version has gold lacquer on both its inner and outer surfaces. The technical sheet also lists other internal finishes, including silver, pigment and clear lacquers, plus offset printing as an external option. Businesses planning a custom-printed candy tin or a logo-printed metal candy box should confirm their printing and coating choices before placing an order. Food-contact suitability must be checked for the properties of the confectionery being packed.

Who Should Consider Wholesale Candy Gift Tins?

This heart-shaped decorative tin may suit confectionery manufacturers, gift-product brands and businesses developing seasonal collections. For wholesale candy tin orders, artwork, surface finish, order quantity and sample approval should be planned together. A capacity of 2.5 liters does not represent a fixed weight in kilograms. The actual filling weight depends on the density of the sweets and how they are arranged inside the box.

Frequently Asked Questions - FAQ

How tall is the 2.5-liter metal candy tin?

The L456 version is listed as 61 mm high. The general BV mold sheet separately shows a height of 40 mm.

Does this candy gift tin have a window lid?

The L456 version has a slip-on lid. The separate 2-liter L455 alternative is listed with a window lid.

Can the confectionery tin be custom printed?

Offset printing is listed among the external finish options. Printing and coating details must be confirmed before production.
