Product Description

2.5 Liter Hexagon Turkish Delight and Chocolate Tin Box

The 2.5 liter hexagon Turkish delight and chocolate tin box BJ is a shaped metal food package designed to protect, transport, and present Turkish delight, chocolate, dragees, and confectionery products. The BJ technical sheet lists a 216 mm diameter, 242 mm length, 55 mm mold height, and an applicable volume range of 2.5–5 liters. The hexagon shape gives the package a sharper and more premium shelf identity than standard round or rectangular tins. A slip lid supports easy opening and closing, while the lock-seamed body provides a clean structure for serial production. The product has no hole, handle, hinge, seam coating, form, or bead. Manufactured by Kontensan, this model is suitable for Turkish delight tin box, Turkish delight gift box, chocolate tin, chocolate tin box, Turkish chocolate box, and premium confectionery packaging projects.

Key Features of the 2.5 Liter Hexagon Turkish Delight and Chocolate Tin Box

216 × 242 mm Hexagon Shape and 2.5–5 L Capacity Range

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Turkish Delight, Chocolate and Dragee Tin Boxes subcategory. The 216 × 242 mm footprint and 55 mm mold height provide a balanced presentation area and useful printing surface. The 2.5–5 L applicable volume range supports different filling needs within the same mold family for Turkish delight present, Turkish delight gift box, chocolate tin, Turkish candy box, and export packaging projects.

Slip Lid and Lock-Seamed Body

The BJ tin box uses a slip lid. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used. Available metal thickness options are 0.24 mm and 0.25 mm. The product has no hole, handle, hinge, form, or bead. This structure gives the package a reliable base for branded serial-production projects.

Offset Printing and Coating Options

The inner surface can use silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. The hexagon metal surface gives brands useful space for logos, product graphics, and special designs.

Source Note

The Turkish source title states 2.5 L, while the English source header states 2 Liter Hexagon Turkish Delight and Chocolate Tin Box BJ. The technical sheet supports the 2.5 L product and a 2.5–5 L applicable volume range. It also lists 55 mm as the mold height, while the L450 alternative row gives a 65 mm actual product height. These values are preserved separately.

Applications and Brand Value

The 2.5 liter hexagon Turkish delight and chocolate tin box can be used for Turkish delight, chocolate, dragees, confectionery, and regional food products. Its hexagon shape gives gift and premium product lines a distinctive shelf presence and helps the package become part of the product story. The metal surface provides useful space for offset printing, logos, product graphics, and brand colors. Kontensan combines coating and printing options with serial production capability for retail, export, corporate gift, and wholesale packaging projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2.5 liter hexagon tin box?

The BJ technical sheet lists a 216 mm diameter, 242 mm length, and 55 mm mold height.

What volume range is available for this tin box?

The technical sheet states an applicable volume range of 2.5–5 liters for the BJ mold.

Why are there two height values, 55 mm and 65 mm?

The main technical line lists a 55 mm mold height, while the L450 alternative row lists a 65 mm actual product height.

Is this tin box lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
