Product Description

2.5 Liter Slip Lid Nuts Tin

The 2.5 liter Slip lid nuts tin RA is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the RA mold, the technical sheet states a 215 mm diameter, 35 mm mold height, and an applicable volume range of 1.3–8.8 liters. The key feature of this nuts tin is its lock-seamed body construction. A slip lid supports simple opening and closing, while the decorative bead gives the package a more distinctive shelf appearance. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal package with a wide surface and flexible capacity.

Key Features of the 2.5 Liter Nuts Tin

Lock-Seamed Body and Slip Lid

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The RA nuts tin uses a lock-seamed body and no seam coating. The slip lid provides a simple closure, while 0.24 mm and 0.25 mm metal thickness options support different production requirements. This clean body structure keeps the nuts tin practical for serial production.

Decorative Bead for Stronger Nuts Tin Presentation

The decorative bead adds visual detail to the metal surface and helps the nuts tin stand apart from plain-body alternatives. The product has no hole, handle, or hinge. This combination is suitable for premium pistachio tins, corporate gift packaging, and export-oriented nuts tin projects where shelf appearance is important.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow logos, product visuals, and brand colors to be applied directly to the nuts tin.

Applications and Brand Value

The 2.5 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its broad metal surface provides a strong area for offset printing, while the decorative bead adds a more distinctive shelf appearance. Kontensan combines coating and printing options with serial manufacturing capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2.5 liter nuts tin?

The RA technical sheet lists a 215 mm diameter and 35 mm mold height. The alternative 2.5 L sample product is listed with an actual height of 66 mm.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 1.3–8.8 liters for the RA mold.

Is this nuts tin lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.

Does this nuts tin have a decorative bead?

Yes. The technical sheet lists a decorative bead in the form / bead field.
