Product Description

2.5 Liter Wind Rose Candy Gift Tin Box CF

The L082 – 2.5 Liter Wind Rose Candy Gift Tin Box CF is a decorative metal package for gift sweets, with a shape inspired by a wind rose. Made by Kontensan, this candy tin belongs to the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes collection. For confectionery manufacturers, packaging is not only about holding sweets. A distinctive design also helps products stand out on the shelf.

Wind Rose Candy Tin Dimensions and Construction

The general technical dimensions for mold CF are 233 mm in diameter and 233 mm in length. The main specification gives a height of 50 mm, while the L082 version row lists 54 mm. The L082 model has a stated capacity of 2.5 liters and a metal thickness of 0.24 mm. It uses a seamed body and a slip-on lid, with no hole, handle or hinge. These details help buyers check whether this lidded confectionery tin fits their filling needs.

Printed Candy Tin and Lacquer Options

The L082 version has gold lacquer on both its inner and outer surfaces. The technical sheet also lists alternative internal lacquers and an offset-printed outer finish. Brands seeking a custom-printed candy tin or a logo-printed metal candy box should confirm the artwork and coating options before production. Any surface touching food must be assessed for the properties of the intended sweets. The right metal confectionery packaging should meet both design and technical needs.

Who Should Consider Wholesale Candy Gift Tins?

This decorative gift tin may suit confectionery producers, corporate gift suppliers and businesses planning special collections. For wholesale candy tin orders, quantity, artwork, lacquer choice and sample approval should be agreed in advance. A capacity of 2.5 liters does not mean the tin holds a fixed weight of candy. Filling weight depends on the product's density and arrangement inside the box.

Frequently Asked Questions - FAQ

What is the capacity of the wind rose candy tin?

The L082 version has a stated capacity of 2.5 liters in the technical sheet.

Does this metal candy tin have a hinged lid?

No. The L082 version has a slip-on lid without a hinge and a seamed body.

Can this confectionery tin have a custom logo?

The technical sheet includes offset printing as an outer finish option. Printing and coating conditions should be confirmed before ordering.
