Product Description

2 Liter Candy Gift Tin Box

The 2 liter candy gift tin box BC is a decorative metal package designed for confectionery, dragee, Turkish delight, and similar products that need both protection and gift-ready presentation. The BC technical sheet lists a 215 mm diameter, 215 mm length, 35 mm main technical height, and an applicable capacity range of 1.6–3.2 liters. Slip lid and window lid options allow the same body to support two different presentation styles. The lock-seamed body keeps the structure clean and compact for retail use. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, and branded metal boxes. The phrase tin can can be used as a common search term, but the product is presented here as a candy gift tin box.

Key Features of the 2 Liter Candy Gift Tin Box

215 × 215 mm Size and 1.6–3.2 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The 215 × 215 mm dimensions and 35 mm main technical height provide a wide surface for presentation and printing. The 1.6–3.2 L applicable capacity range supports different filling plans within the same mold family.

Slip Lid and Window Lid Options

The technical sheet lists two lid options: slip lid and window lid. No opening, handle, hinge, form, or bead is listed. The window lid helps display the product visually, while the slip lid provides a simpler package appearance. This gives brands two clear presentation options for gift and confectionery packaging.

Lock-Seamed Body and Decorative Printing

The body is lock-seamed and the source lists no seam coating. Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, cream enamel, beige, clear lacquer, and decorative gold lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support branded candy tins, printed confectionery tins, and gift packaging designed around brand identity.

Source Note

The BC main technical row lists a 35 mm height, while the L445 and L447 alternative product rows list a 38 mm actual product height. These values are preserved separately.

Frequently Asked Questions - FAQ

What is the capacity range of the 2 liter candy gift tin box?

The BC technical sheet lists an applicable capacity range of 1.6–3.2 liters.

Which lid options are available?

The source lists slip lid and window lid options.

Is the body welded or lock-seamed?

The body is lock-seamed. The source lists no seam coating.

Can the box be custom printed?

Yes. Offset printing is listed among the outer coating options, supporting custom-printed candy tin projects.
