Product Description

2 Liter Candy Gift Tin Box
The 2 liter candy gift tin box NA is positioned as decorative metal packaging for confectionery, dragee, Turkish delight, chocolate, and similar products. The source header names the product as 2 Liter Candy Gift Tin Box NA. However, the technical section in the same source contains data for a 1/2 L Lock-Seamed Candy Tin Box LA. Because these two references do not identify the same product code, the content keeps the product name and technical data separate instead of silently combining them. Manufactured by Kontensan, this product family is relevant for decorative candy tins, printed confectionery tins, gift tins, branded metal packaging, and custom tin can applications.
Technical Data Listed in the Source
Ø99 mm Diameter and 0.3–2 L Applicable Capacity
The technical section belongs to the LA 1/2 L lock-seamed candy tin and lists a 99 mm diameter, 38 mm main technical height, and an applicable capacity range of 0.3–2 liters. These values are reported as source data only because they do not directly match the 2 L NA product name shown at the top of the file.
Slip Lid, Lock-Seamed Body and Decorative Bead
The technical sheet lists a slip lid, lock-seamed body, decorative bead, no handle, and no seam coating. This structure is suitable for compact confectionery packaging, printed candy tins, and branded gift tins.
Coating and Offset Printing Options
The source lists several inner coating options, including silver lacquer, gold lacquer, pigment lacquer, enamel, clear lacquer, decorative gold lacquer, and others. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These choices support custom printed candy tins and branded metal packaging.
Frequently Asked Questions - FAQ
Is this product confirmed as 2 liters?
The source header says 2 liters, but the technical datasheet belongs to a 1/2 L LA product. The source does not fully reconcile this difference.
What body construction is listed?
The technical datasheet lists a lock-seamed body.
Can the tin be custom printed?
Yes. Offset printing is listed among the outer coating options.
Which categories does it belong to?
It is positioned under Food Tin & Metal Packaging and the Candy Gift Tin Boxes subcategory.
