Product Description

2 L Cookies and Baklava Tin Box

The 2 Liter Cookies and Baklava Tin Box is a metal box designed for baklava, cookies and syrup-based desserts with its cornered, deep form. With a 184 × 170 mm cornered base and 60 mm height, it has a fill volume of 1.8 liters. This product belongs to the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Deep Cornered Baklava Tin

Unlike flat baklava boxes, this box offers a deeper volume with its 60 mm height, which is an advantage for layered cookies, Turkish delight and filled treats. The cornered form is also suitable for laying sliced baklava flat. The slip-on lid gives easy opening and closing.

Uses

The cookies and baklava tin box suits dessert makers, patisseries and gift producers. Its deep form is a practical option for bulky and layered dessert presentations.

Printing and Coating Options

A printed baklava tin can be produced with a wide range of internal and external coatings such as silver lacquer, gold lacquer, enamel, pigment lacquer and decorative gold lacquer. Metal offset printing allows festive and custom-brand designs to be applied to the surface.

Leak Resistance and Food Safety

The clinch-seam cornered body and food-grade lacquer systems support leak resistance and hygiene for syrup-based contents throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal dessert boxes from Türkiye to more than 30 countries. Production in different sizes and depths is also possible.

Frequently Asked Questions - FAQ

What is the advantage of a deep baklava box?

With its 60 mm height it offers a deeper volume; it is ideal for layered cookies, Turkish delight and filled treats.

How much dessert fits in a 2 liter baklava box?

The mould has a fill volume of 1.8 liters. The amount varies with the type of baklava, cookies or syrup-based dessert and how it is arranged.

Will syrup-based desserts leak?

The clinch-seam body and food-grade internal coating support leak resistance for syrup-based contents and help carry the content safely.

Can custom festive printing be applied?

Yes. With metal offset printing, festive, gift and custom-brand designs can be applied to the surface.
