Product Description

2 Liter Heart-Shaped Turkish Delight and Chocolate Tin Box

The 2 liter heart-shaped Turkish delight and chocolate tin box BV is a shaped metal food package designed to protect, transport, and present Turkish delight, chocolate, dragees, and confectionery products. The BV technical sheet lists a 233 mm diameter, 233 mm length, 40 mm mold height, and an applicable volume range of 2–4.4 liters. The heart shape creates a more emotional and distinctive shelf identity than standard round or rectangular tins. Slip lid and window lid options support different presentation needs. The body is lock-seamed, with no seam coating, form, or bead. Manufactured by Kontensan, this model is suitable for Turkish delight tin box, Turkish delight gift box, Turkish delight present, chocolate tin, chocolate tin box, Turkish chocolate box, and premium confectionery packaging projects.

Key Features of the 2 Liter Heart-Shaped Tin Box

233 × 233 mm Heart Shape and 2–4.4 L Capacity Range

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Turkish Delight, Chocolate and Dragee Tin Boxes subcategory. The 233 × 233 mm footprint and 40 mm mold height provide a broad presentation surface. The 2–4.4 L applicable volume range supports different filling needs within the same mold family for Turkish delight gift box, chocolate tin, Turkish candy box, and export packaging projects.

Slip Lid or Window Lid Option

The BV model supports both slip lid and window lid options. A window lid allows the product to remain visible before opening, which is useful for Turkish delight, chocolate, and dragee presentation. A slip lid provides a more classic appearance. The technical sheet states that the product has no handle or hinge, while the body construction is lock-seamed and no seam coating is applied.

Offset Printing and Coating Options

The inner surface can use silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. The heart-shaped metal surface provides useful space for logos, product graphics, and special gift designs.

Source Note

The main technical line lists a 40 mm mold height and a 2–4.4 L applicable volume range. The alternative rows list a 45 mm actual product height for the 2 L L455 sample and a 61 mm actual product height for the 2.5 L L456 sample. These values are preserved separately as stated in the source.

Applications and Brand Value

The 2 liter heart-shaped Turkish delight and chocolate tin box can be used for Turkish delight, chocolate, dragees, confectionery, and regional food products. Its heart shape gives seasonal, gift, and premium product lines a distinctive shelf presence and helps the package become part of the product story. The window lid option improves product visibility, while the metal surface provides strong space for offset printing, logos, product graphics, and brand colors. Kontensan combines lid, coating, and printing options with serial production capability for retail, export, corporate gift, and wholesale packaging projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2 liter heart-shaped tin box?

The BV technical sheet lists a 233 mm diameter, 233 mm length, and 40 mm mold height.

What volume range is available for this tin box?

The technical sheet states an applicable volume range of 2–4.4 liters for the BV mold.

Is a window lid available?

Yes. The technical sheet lists both slip lid and window lid options.

What do the 45 mm and 61 mm heights represent?

They are actual product heights for the alternative L455 and L456 examples. The main 40 mm value is kept separately as the mold height.
