Product Description

2 Liter Nuts Tin

The 2 liter nuts tin AS is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the AS mold, the technical sheet states a 184 mm diameter, 170 mm length, 60 mm height, and 2 liter volume. A slip lid gives the nuts tin simple opening and closing, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal nut package with a balanced body and fixed 2 L capacity.

Key Features of the 2 Liter Nuts Tin

Fixed 2 L Capacity and Balanced Nuts Tin Body

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. Its 184 × 170 mm size and 60 mm height give the nuts tin a balanced body profile. Because the technical sheet specifies a 2 L volume, this nuts tin is suitable for packaging projects that require a standardized filling capacity.

Slip Lid and Lock-Seamed Nuts Tin Body

The AS nuts tin uses a slip lid. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This clean structure keeps the nuts tin practical for serial production.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its fixed 2 L capacity supports clear packaging planning, while the metal surface provides a strong area for offset printing. Kontensan combines lacquer and printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2 liter nuts tin?

The AS mold is listed with a 184 mm diameter, 170 mm length, and 60 mm height.

What is the volume of this nuts tin?

The technical sheet states a 2 liter volume for the AS mold.

Is this nuts tin lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.

Can custom printing be applied to the nuts tin?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the nuts tin to be customized for the brand and product series.
