## Product Description

2 Liter Nuts Tin

The 2 liter nuts tin BC is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the BC mold, the technical sheet states a 215 mm diameter, 215 mm length, and 35 mm mold height. The same mold supports an applicable volume range of 1.6–3.2 liters. A slip lid or window lid gives the nuts tin different presentation options, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal nut package with a balanced size and strong printing area.

Key Features of the 2 Liter Nuts Tin

Slip Lid or Window Lid Options

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The BC mold supports both a slip lid and a window lid. A slip lid gives the nuts tin a simple and classic appearance, while a window lid allows the product to be seen without opening the package. This is useful for premium nuts, gift products, and shelf-focused retail packaging.

Lock-Seamed Nuts Tin Body

The BC nuts tin uses a lock-seamed body, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This simple technical structure makes the nuts tin suitable for serial production and keeps the package appearance clean.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its 215 × 215 mm size gives the nuts tin a balanced form with a wide branding surface. A window lid can improve product visibility, while offset printing turns the nuts tin into an active brand communication surface. Kontensan combines lacquer, printing, and lid options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2 liter nuts tin?

The BC mold is listed with a 215 mm diameter, 215 mm length, and 35 mm mold height. The alternative 2 L sample products are listed with a height of 38 mm.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 1.6–3.2 liters for the BC mold.

Which lid options are available?

The BC nuts tin supports both slip lid and window lid options. The source includes two 2 L sample products using these two lid types.

Is this nuts tin lock-seamed?
Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
