Product Description

2 Liter Nuts Tin

The 2 liter nuts tin CC is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the CC mold, the technical sheet states a 198 mm diameter, 198 mm length, and 35 mm mold height. The same mold supports an applicable volume range of 1.3–7 liters. A slip lid gives the nuts tin simple opening and closing, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal nut package that combines a compact base with flexible volume options.

Key Features of the 2 Liter Nuts Tin

Compact Base and Flexible Nuts Tin Volumes

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. Its 198 × 198 mm base gives the nuts tin a compact form, while the 1.3–7 L applicable volume range allows different product quantities to use the same mold family. This flexibility supports retail, corporate gift, regional food, and wholesale packaging projects.

Slip Lid and Lock-Seamed Nuts Tin Body

The CC nuts tin uses a slip lid. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This simple construction keeps the nuts tin practical for serial production and gives the package a clean appearance.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment

lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its 198 × 198 mm size gives the nuts tin a balanced and compact shelf form. Because the same mold family supports different product heights, brands can create visually consistent packaging series across several volumes. Kontensan combines lacquer and offset printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2 liter nuts tin?

The CC mold is listed with a 198 mm diameter, 198 mm length, and 35 mm mold height. The alternative 2 L sample products are listed with heights of 50 mm and 55 mm.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 1.3–7 liters for the CC mold.

Is this nuts tin lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.

Can custom printing be applied to the nuts tin?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the nuts tin to be customized for the brand and product series.
