Product Description

2 Liter Nuts Tin

The 2 liter nuts tin CL is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the CL mold, the technical sheet states a 147 mm diameter, 106 mm length, 138 mm mold height, and 2 L volume. The key advantage of this nuts tin is its choice of crystal lid or slip lid. The crystal lid supports product visibility, while the slip lid offers simple everyday use. The lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal package with a compact oval form and two lid options.

Key Features of the 2 Liter Nuts Tin

Crystal Lid and Slip Lid Options

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The CL nuts tin can use either a crystal lid or a slip lid. The crystal lid lets the product remain visible, which supports premium and gift packaging. The slip lid offers a simpler closure for practical use. These options make the same nuts tin body suitable for different packaging concepts.

Lock-Seamed Oval Nuts Tin Body

The 147 × 106 mm size and 138 mm mold height give the nuts tin a small oval body. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or decorative bead. Available metal thickness options are 0.24 mm and 0.25 mm.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow product visibility and brand design to work together in premium pistachio, nut, and export packaging projects.

Applications and Brand Value

The 2 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. The crystal lid supports product visibility, while the slip lid provides a simpler closure. The oval body helps the nuts tin stand apart on the shelf, and offset printing turns the metal surface into a visible brand communication area. Kontensan combines coating, printing, and lid options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 2 liter nuts tin?

The CL technical sheet lists a 147 mm diameter, 106 mm length, and 138 mm mold height. The alternative 2 L small oval sample product is listed with an actual height of 131 mm.

What lid options are available for this nuts tin?

The technical sheet lists crystal lid and slip lid options.

Is this nuts tin lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.

Does this nuts tin have a decorative bead?

No. The technical sheet lists no form or decorative bead for this model.
