Product Description

2 Liter Vegetable Oil Tin Can

The 2 Liter Vegetable Oil Tin Can is a metal oil tin with a round body and small volume, practical for retail and single-unit presentation. With an 87 mm diameter and 65 mm height, it suits fill volumes ranging from 0.5 to 2 liters. This product belongs to the Vegetable Oil Tin Can series under Kontensan's Food Tin & Metal Packaging main category.

Where Is the 2 Liter Vegetable Oil Tin Can Used?

As one of the smallest sizes in the series, this oil tin suits retail shelves, single-unit consumer packaging and tasting or gift presentations. Its round, seamed body gives a classic tin look and an easy grip. Kontensan 2 Liter Vegetable Oil Tin Can can be produced for liquid oils such as sunflower, corn and olive oil; the food-grade internal coating keeps the oil fresh.

Technical Specifications and Dimensions

The table below shows the core technical values and configurable options of the 2 liter vegetable oil tin can. The 0.24 mm sheet thickness offers a lightweight, economical package.

Coating and Printing Options

This oil tin can be produced with internal and external coatings such as silver lacquer, gold lacquer, enamel and pigment lacquer. A Ø32 practical or vented cap allows easy, controlled pouring. With metal offset printing, a custom brand design is applied to the round surface.

Durability and Food Safety

Seam coating options and food-grade lacquer systems support leak resistance and hygiene throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies oil tins from Türkiye to more than 30 countries. Alternative moulds, such as another 2 liter oil tin, can also be produced to fit your needs.

Frequently Asked Questions - FAQ

How many kilograms of oil does a 2 liter oil tin hold?

Liquid oils have a density of about 0.91 kg per liter, so 2 liters of oil weighs roughly 1.8 kg. The tin suits a 0.5–2 liter fill range, so the weight varies with the fill amount.

What fill range does the 2 liter vegetable oil tin can suit?

It suits fill volumes from 0.5 to 2 liters; the nominal size is 2 liters. This flexibility is an advantage for small-volume filling.

Is this tin round or rectangular?

It has a round (cylindrical) body. With an 87 mm diameter, it offers a classic tin look and an easy grip.

Is it suitable for olive oil?

Yes. Thanks to its food-grade internal coating options, it is suitable for olive oil and other liquid vegetable oils.
