Product Description

3.5 Liter Corrugated Candy Tin Box
For candy, Turkish delight, dragée, chocolate and gift products, packaging does more than carry the product; it makes the brand visible on the shelf. The 3.5 L corrugated chest model produced by Kontensan is part of the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes product group. This candy tin combines a decorative appearance with a durable metal structure to increase the presentation value of the product.
The box has a 3.5 liter volume and measures 300 × 200 × 61 mm. It can be produced with 0.24 mm or 0.25 mm metal thickness. The slip lid supports easy opening and closing, while the seamed body supports structural integrity. For brands looking for a decorative confectionery tin, the outer surface can use offset printing, silver lacquer, gold lacquer, enamel, double lacquer, clear lacquer or decorative gold lacquer options.
Printed Candy Tin Packaging That Strengthens Brand Value
The package surface is a quiet sales area for the brand. Custom printed candy tin packaging can carry the logo, product identity, campaign design and corporate colors directly on the box. This turns the gift tin into more than protective packaging. It becomes a reusable product that can keep the brand visible after the sweets are consumed. In some projects, the product can also be described as a candy tin can when buyers search for metal confectionery packaging.
Which Products Are Suitable for This Metal Confectionery Tin?
This metal confectionery package can be considered for candy, Turkish delight, dragée, chocolate, local specialties and gift food sets. The inner surface can use silver lacquer, gold lacquer, pigment lacquer, cream enamel lacquer and other protective coating options. The correct coating should be selected according to the product to be filled and the production requirements. For wholesale candy tin orders and custom projects, printing, coating and production details are defined according to the project.
Frequently Asked Questions - FAQ
What are the dimensions of the 3.5 L candy tin box?
The box measures 300 × 200 × 61 mm and has a 3.5 liter volume. Metal thickness can be 0.24 mm or 0.25 mm.
Can a logo or custom print be applied to the box?
Yes. Offset printing and different outer coating options can be used for branded and decorative designs.
What type of lid does the box use?
The product uses a slip lid. It has no handle or hinge, and the body uses a seamed construction.
