Product Description

3.5 Liter Octagonal Candy Gift Tin Box

The 3.5 liter octagonal candy gift tin box BN is a decorative metal package designed for confectionery, dragee, Turkish delight, chocolate, and similar products that need protection and gift-ready presentation. Its 221 × 221 mm format, octagonal shape, and decorative bead create a distinctive appearance compared with standard round or square tins. A slip lid and lock-seamed body combine practical use with a clean outer surface. Manufactured by Kontensan, this candy tin is suitable for decorative confectionery packaging, printed candy tins, gift tins, branded metal packaging, and custom tin can projects.

Key Features of the 3.5 Liter Octagonal Candy Gift Tin Box

221 × 221 mm Octagonal Format and 1.7–5.4 L Capacity Range

This product is part of Kontensan's Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. The 221 × 221 mm base size and 35 mm main technical height provide a wide presentation surface. The 1.7–5.4 L applicable capacity range supports different filling plans within the same mold family. Alternative L452 is listed with an 80 mm actual product height and 3.5 liter volume.

Slip Lid, Lock-Seamed Body and Decorative Bead

The technical structure includes a slip lid, lock-seamed body, and decorative bead. No opening, handle, hinge, or seam coating is listed. The decorative bead supports the octagonal geometry and gives the package a more premium shelf appearance. This makes the format suitable for gift tins, branded confectionery packaging, and wholesale candy tin projects.

Decorative Coating and Offset Printing Options

Inner coating options include silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, cream enamel, beige, clear lacquer, cream lacquer, decorative gold lacquer, and grey lacquer. Outer options include silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, and decorative gold lacquer. These options support printed confectionery tins, branded candy tins, and custom packaging.

Frequently Asked Questions - FAQ

What are the dimensions of the 3.5 liter octagonal candy gift tin box?

The product family uses a 221 × 221 mm base size. The main technical height is 35 mm, while alternative L452 is listed with an 80 mm actual product height.

Which lid is used?

The product uses a slip lid for practical opening and closing.

Is the body welded or lock-seamed?

The body is lock-seamed and no seam coating is listed.

Can the tin be custom printed?

Yes. Offset printing is available among the outer finish options for custom branded candy tin projects.
