Product Description

3.5 Liter Oyster Turkish Delight and Chocolate Tin Box

The 3.5 Liter oyster Turkish delight and chocolate tin box DS is a shaped metal food package designed to protect, transport, and present Turkish delight, chocolate, dragees, and confectionery products. The source product title states 3.5 L, while the DS technical sheet names the item as a 3 L oyster Turkish delight-chocolate tin. The technical data lists a 277 mm diameter, 235 mm length, 60 mm height, and 3 L volume. The oyster shape gives the package a more distinctive shelf identity than standard round or rectangular tins. A slip lid and hinged construction support convenient use, while the lock-seamed body provides a clean structure for serial production. Manufactured by Kontensan, this model is suitable for Turkish delight tin box, Turkish delight gift box, chocolate tin, chocolate tin box, Turkish chocolate box, and premium confectionery packaging projects.

Key Features of the 3.5 Liter Oyster Turkish Delight and Chocolate Tin Box

277 × 235 mm Oyster Shape

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Turkish Delight, Chocolate and Dragee Tin Boxes subcategory. The 277 × 235 mm footprint and 60 mm height provide a broad surface for presentation and branding. The oyster shape supports premium Turkish delight present, Turkish delight gift box, chocolate tin, and export packaging projects where visual differentiation matters.

Slip Lid, Hinge and Lock-Seamed Body

The DS tin box uses a slip lid, and the technical sheet lists the handle / hinge field as hinged. The body construction is lock-seamed, and no seam coating is applied. Available metal thickness options are 0.24 mm and 0.25 mm. The product has no hole, form, or bead. This construction gives the package a reliable and distinctive base for branded serial-production projects.

Offset Printing and Coating Options

The inner surface can use silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. The oyster-shaped metal surface gives brands useful space for logos, product graphics, and special designs.

Source Note

The source product title states 3.5 L, while both technical data blocks describe a 3 L product. These values have not been corrected or merged; they are preserved separately as they appear in the source.

Frequently Asked Questions - FAQ

What are the dimensions of the oyster tin box?

The DS technical sheet lists a 277 mm diameter, 235 mm length, and 60 mm height.

Is the capacity 3 L or 3.5 L?

The source product title states 3.5 L, while the technical sheet states 3 L. Both values are retained because the source itself contains this difference.

Is this tin box hinged?

Yes. The technical sheet lists the handle / hinge field as hinged.

Is this tin box lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
