Product Description

3.5 Liter Pear Candy Gift Tin Box DD
The L470 3.5 Liter Pear Candy Gift Tin Box DD is a pear-shaped metal package designed to present sweets and gift products. Kontensan, a manufacturer operating since 1980, offers this product under Food Tin & Metal Packaging in its Candy Gift Tin Boxes category. Its decorative shape gives confectionery brands an attractive way to present their products.
Decorative Candy Tin Design and Specifications
This 3.5-liter candy tin measures 260 mm in diameter, 240 mm in length and 62 mm in height. The technical sheet lists material thickness options of 0.24 and 0.25 mm; the L470 version uses 0.24 mm. A slip-on lid and seamed construction make it a practical metal candy box for branded gift packaging. It has no hole, handle or hinge

Printed Confectionery Tin and Coating Options
The L470 version has gold lacquer on both the inside and outside surfaces. The technical sheet also lists other internal coatings and external finishes, including offset printing. Brands looking for custom-printed candy tins or logo-printed confectionery tins should confirm the printing method and coating combination before production. Coating suitability for the intended food and contact conditions must also be checked.

Who Should Choose Wholesale Candy Gift Tin Boxes?
This model may suit confectionery manufacturers, gift brands and businesses preparing special packaging collections. A decorative confectionery tin helps products stand out on shelves and gives the package an appealing appearance. For wholesale candy tin orders, printing, coatings, quantities and sample approval should be agreed on together.

Frequently Asked Questions - FAQ
What are the dimensions of this 3.5-liter candy tin?
The tin is 260 mm in diameter, 240 mm long and 62 mm high. Its nominal volume is 3.5 liters.
Can a logo be printed on this metal candy box?
The technical sheet includes offset printing as an external finish option. The final design and production conditions should be confirmed before ordering.
How many kilograms of candy does the box hold?
A volume of 3.5 liters does not equal a fixed weight in kilograms. Filling weight depends on the candy's density and how the pieces are arranged.
