Product Description

3 Liter Apple Candy Gift Tin Box DO
In confectionery packaging, shape is one of the strongest visual elements for making a brand stand out on the shelf. The 3 L apple-shaped model produced by Kontensan is part of the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes group. For brands looking for a distinctive candy tin, the apple shape offers a presentation that clearly differs from standard box designs.
The product measures 260 × 248 × 50 mm, and the technical datasheet gives a volume range of 3–4.5 liters. It can be produced with 0.24 mm or 0.25 mm metal thickness. The slip lid supports easy handling, while the seamed construction helps maintain the integrity of the body. This makes the box suitable for brands seeking a decorative confectionery tin that combines a strong shelf presence with practical product protection.
Printed Candy Tin Packaging That Makes Your Brand Visible

The outer surface can use offset printing, silver lacquer, gold lacquer, enamel, double lacquer, clear lacquer or decorative gold lacquer. This allows the candy tin to match the brand's colors and visual identity. A custom printed candy tin can can carry logos, graphics and campaign designs directly on the package. For premium candy, Turkish delight, chocolate, dragée and corporate gift sets, custom printing can make the packaging part of the sales experience.
Which Products Are Suitable for This Confectionery Tin?
This metal confectionery package can be considered for candy, Turkish delight, dragée, chocolate, local specialties and gift food sets. The inner surface can use silver lacquer, gold lacquer, pigment lacquer, cream enamel lacquer, beige lacquer and other protective coating options. The correct coating should be selected according to the filled product and production requirements. For wholesale candy tin orders and custom projects, printing, coating and production details are defined according to the order needs.
Frequently Asked Questions - FAQ
What are the dimensions of the 3 L candy tin box?
The product measures 260 × 248 × 50 mm. The technical datasheet gives a volume range of 3–4.5 liters and a metal thickness of 0.24 mm or 0.25 mm.
Can custom printing be applied to the apple-shaped box?
Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing logos, corporate colors and custom graphics to be added.
What type of lid and body construction does the box use?
The product uses a slip lid and a seamed body construction. It has no handle or hinge.
