Product Description

3 L Cookies and Baklava Tin Box

The 3 Liter Cookies and Baklava Tin Box is a metal box designed for baklava and syrup-based desserts with its wide rectangular tray form and flexible fill range. With a 300 × 200 mm cornered base and 45 mm height, it suits fill volumes ranging from 2.7 to 6 liters. This product belongs to the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes series under Kontensan's Food Tin & Metal Packaging main category.

Wide Rectangular Baklava Tray Tin

Baklava slices are not crushed when laid flat and side by side in a rectangular tray. With its wide rectangular form and a depth that varies from 2.7 to 6 liters, this baklava tin adapts to both thin and thicker arrangements; it is ideal for full-tray presentation. The slip-on lid gives easy opening and closing; it is also suitable for dry desserts such as cookies.

Uses

The cookies and baklava tin box suits baklava makers, dessert shops, patisseries and gift producers. Its wide top surface gives a strong visual area for the brand in festive and special-day presentations.

Printing and Coating Options

A printed baklava tin can be produced with a wide range of internal and external coatings such as silver lacquer, gold lacquer, enamel, pigment lacquer and decorative gold lacquer. Metal offset printing allows a full festive, custom-brand design on the wide rectangular lid surface.

Leak Resistance and Food Safety

The clinch-seam cornered body and food-grade lacquer systems support leak resistance and hygiene for syrup-based contents throughout the shelf life.

Kontensan Production Assurance

Kontensan supports production reliability with its quality, environmental and food safety management system certifications. With 46 years of manufacturing experience, it supplies metal dessert boxes from Türkiye to more than 30 countries. Production in different heights and volumes is also possible.

Frequently Asked Questions - FAQ

Why is baklava presented in a wide rectangular tray?

Baklava slices laid flat in a rectangular tray are not crushed and look elegant. The wide rectangular form is ideal for full-tray presentation and bulk sales.

How much dessert fits in a 3 liter baklava box?

With a height that varies, the mould offers filling from 2.7 to 6 liters. The amount varies with the cut size of the baklava and how it is arranged.

Will syrup-based desserts leak?

The clinch-seam body and food-grade internal coating support leak resistance for syrup-based contents and help carry the content safely.

Can custom festive printing be applied?

Yes. With metal offset printing, festive, gift and custom-brand designs can be applied to the wide rectangular surface.
