Product Description

3 Liter Cookies and Baklava Tin Box

The 3 liter cookies and baklava tin box EU is a wide-surface metal food package designed to protect, transport, and present cookies, baklava, syrup-based desserts, and similar food products. For the EU mold, the technical sheet states a diameter of 250 mm and

a height of 36 mm. The same mold supports an applicable volume range of 1.7–9.8 liters. A slip lid provides simple opening and closing while keeping the classic metal tin appearance. Manufactured by Kontensan, this model is suitable for food producers looking for a cookies tin, baklava tin, or branded metal package with a durable body, wide printing area, and serial production capability.

Key Features of the Cookies and Baklava Tin Box

Wide-Surface Metal Food Packaging

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Cookies, Baklava, and Syrup-Based Dessert Tin Boxes subcategory. The available 0.24 mm and 0.25 mm metal thickness options help the wide tin keep a stable form. Its lock-seamed body supports standardized serial production. According to the technical sheet, the product has no hole, handle, hinge, seam coating, or bead. This simple technical structure is suitable for wholesale cookie tin and wholesale baklava tin projects where production efficiency and a clean package appearance are important.

Practical Slip Lid

The 3 L model uses a slip lid. This lid gives easy access to a wide metal tin while keeping a traditional package appearance. It is suitable for bulk presentation of cookies, baklava, and syrup-based desserts. For pastry shops, dessert manufacturers, corporate gifts, and export packaging projects, the simple lid system supports practical use without adding unnecessary mechanical parts.

Offset Printing and Coating Options

The inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. The wide surface gives brands more space for logos, product visuals, and corporate colors on printed baklava tins and branded cookie tins.

Applications and Brand Value

The 3 liter cookies and baklava tin box can be used for cookies, baklava, syrup-based desserts, premium food products, regional specialties, and corporate gift sets. Its 250 mm diameter supports organized product presentation across a wide surface. Because the metal surface supports offset printing, the box can work as both protective packaging and a strong brand communication surface. The reusable metal body can also remain useful after the food is consumed. Kontensan combines different lacquer and printing options with serial production capability, giving food brands a practical way to balance technical function with strong shelf presentation in medium-volume packaging.

Frequently Asked Questions - FAQ

What are the dimensions of the 3 liter cookies and baklava tin box?

The EU mold is listed with a diameter of 250 mm and a height of 36 mm.

What is the applicable volume range of the EU mold?

The technical sheet states an applicable volume range of 1.7–9.8 liters for the EU mold. The 3 L product is one option within this mold family.

Can custom printing be applied to the box?

Yes. Offset printing and different lacquer options can be applied to the outer surface, allowing the package to be customized for the brand and product series.

Which products can be packed in this tin box?

It is suitable for cookies, baklava, syrup-based desserts, premium food products, regional specialties, and corporate gift sets.
