Product Description

3 Liter Egg Candy Gift Tin Box EE

The L489 – 3 Liter Egg Candy Gift Tin Box EE is a decorative metal candy tin with an egg-shaped design that stands apart from standard packaging. Made by Kontensan, the model belongs to the Food Tin & Metal Packaging main category and the Candy Gift Tin Boxes subcategory. It gives confectionery brands a different choice for gift packaging, product presentation and shelf appeal.

Egg-Shaped Candy Tin Dimensions and Construction

The tin measures 312 mm in diameter, 243 mm in length and 50 mm in height. The L489 version has a stated capacity of 3 liters and a metal thickness of 0.24 mm. The technical sheet also lists 0.25 mm as an available thickness option. The box has a slip-on lid and a seamed joint, with no handle, hinge or hole. Its wide, low shape may work well for an arranged confectionery display. Actual filling quantity depends on the size and placement of the sweets.

Printed Confectionery Tin and Coating Options

The L489 model has a gold lacquer finish on both the inner and outer surfaces. Other available options include several internal lacquers, external coatings and offset printing. Brands planning a custom-printed candy tin or a logo-printed metal candy box can use the surface to support their visual identity. However, printing, coating and food-contact suitability must be confirmed for the intended product before ordering. A decorative candy tin should meet both design and practical requirements.

What Matters When Ordering Wholesale Candy Gift Tins?

This egg-shaped confectionery tin may suit sweet manufacturers, corporate gift brands and special product collections. Before ordering wholesale candy tins, buyers should confirm dimensions, surface finish, artwork, quantity and sample approval. When choosing metal confectionery packaging, the way products fit inside the box matters just as much as the stated capacity.

Frequently Asked Questions - FAQ

What are the dimensions of the 3-liter egg candy tin?

The stated dimensions are 312 mm in diameter, 243 mm in length and 50 mm in height, with a 3-liter capacity for L489.

Does this candy gift tin have a hinge?

No. According to the technical sheet, L489 has a slip-on lid without a hinge.

Can this egg-shaped confectionery tin be custom printed?

The technical sheet lists offset printing as an external finish option. The final printing and coating choice should be approved before production.
