Product Description

3 Liter Half-Octagonal Turkish Delight and Chocolate Tin Box
The 3 Liter Half-octagonal Turkish delight and chocolate tin box FP is a shaped metal food package designed to protect, transport, and present Turkish delight, chocolate, dragees, and confectionery products. The FP technical sheet lists a 210 mm diameter, 250 mm length, 72 mm height, and 3 liter volume. The half-octagonal shape creates a more distinctive shelf appearance than a conventional round tin. A slip lid supports easy opening and closing, while the lock-seamed body provides a clean structure for serial production. The product has no hole, handle, hinge, seam coating, form, or bead. Manufactured by Kontensan, this model is suitable for Turkish delight tin box, Turkish delight gift box, chocolate tin, chocolate tin box, Turkish chocolate box, and premium confectionery packaging projects.
Key Features of the 3 Liter Half-Octagonal Tin Box
210 × 250 mm Half-Octagonal Form
This product is included in Kontensan's Food Tin & Metal Packaging main category and the Turkish Delight, Chocolate and Dragee Tin Boxes subcategory. The 210 × 250 mm footprint and 72 mm height create a broad presentation surface. This format works well for Turkish delight present, Turkish delight gift box, chocolate tin, and export packaging where visual differentiation matters.
Slip Lid and Lock-Seamed Body
The FP tin box uses a slip lid. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. Available metal thickness options are 0.24 mm and 0.25 mm. The product has no hole, handle, hinge, form, or bead. This simple construction gives the package a clean and reliable base for branded serial-production projects.
Offset Printing and Coating Options
The inner surface can use silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer.
Applications and Brand Value
The 3 liter half-octagonal Turkish delight and chocolate tin box can be used for Turkish delight, chocolate, dragees, confectionery, and regional food products. Its half-octagonal shape gives premium and gift product lines a stronger shelf identity than standard round tins. The metal surface provides useful space for offset printing, logos, product graphics, and brand colors. Kontensan combines coating and printing options with serial production capability for retail, export, corporate gift, and wholesale packaging projects.
Frequently Asked Questions - FAQ
What are the dimensions of the 3 liter half-octagonal tin box?
The FP technical sheet lists a 210 mm diameter, 250 mm length, and 72 mm height.
What is the volume of this tin box?
The technical sheet lists the product volume as 3 liters.
Is this tin box lock-seamed?
Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
Does this model have a decorative bead?
No. Both the main technical line and the alternative 3 L sample state that there is no form or bead.
