Product Description

3 Liter Nuts Tin

The 3 liter nuts tin HA is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the HA mold, the technical sheet states a 116 mm diameter, 150 mm length, and 35 mm mold height. The same mold supports an applicable volume range of 0.6–5.5 liters. A slip lid gives the nuts tin simple opening and closing, while the lock-seamed body supports clean serial production. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or branded metal nut package that combines a compact base with flexible capacity.

Key Features of the 3 Liter Nuts Tin

Compact Base and Flexible Nuts Tin Capacity

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. Its 116 × 150 mm size gives the nuts tin a compact base, while the 0.6–5.5 L applicable volume range supports different filling quantities within the same mold family. This flexibility is useful for retail, regional food, corporate gift, and wholesale packaging projects.

Slip Lid and Lock-Seamed Nuts Tin Body

The HA nuts tin uses a slip lid. The body construction is lock-seamed, and the technical sheet states that no seam coating is applied. The product has no hole, handle, hinge, or bead. Available metal thickness options are 0.24 mm and 0.25 mm. This clean structure keeps the nuts tin practical for serial production.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 3 liter nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its compact base can help use shelf space efficiently, while the broad applicable volume range supports different product series. Offset printing turns the nuts tin into a visible brand communication surface. Kontensan combines lacquer and printing options with serial production capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 3 liter nuts tin?

The HA mold is listed with a 116 mm diameter, 150 mm length, and 35 mm mold height.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 0.6–5.5 liters for the HA mold.

Are alternative lid options shown in the source?

Yes. The main technical definition uses a slip lid. In the alternative 500 ml samples, one product uses a slip lid and another uses a window lid.

Is this nuts tin lock-seamed?

Yes. The technical sheet identifies the body construction as lock-seamed and states that no seam coating is used.
