Product Description

3 Liter Oval Candy Gift Tin Box CR

The 3 Liter Oval Candy Gift Tin Box CR is an oval-shaped metal package designed to present confectionery and gift products in a distinctive way. Kontensan offers this product in its Food Tin & Metal Packaging main category, under Candy Gift Tin Boxes. This decorative candy tin gives brands an alternative to traditional round boxes and creates a different look for their products.

Oval Candy Tin Dimensions and Lid Construction

The general CR mold sheet lists a diameter of 247 mm, a length of 175 mm and a height of 75 mm. It gives a volume range of 3–4 liters, while this product is described as the 3-liter option. Available metal thicknesses are 0.24 mm and 0.25 mm. The tin uses a slip-on lid and a seamed body. It has no handle, hinge or hole. Buyers choosing a lidded confectionery tin should compare these dimensions with the shape of their sweets and the planned filling arrangement.

Printed Confectionery Tin and Lacquer Options

The technical sheet lists several internal coatings, including silver, gold, pigment and clear lacquer. External finishes include gold lacquer, enamel and offset printing. These options allow brands planning a custom-printed candy tin or a logo-printed metal candy box to match packaging with their visual identity. However, the suitability of each printing and coating combination must be confirmed before production. The inner finish of metal confectionery packaging should be selected according to the food and its contact conditions.

Who Can Use Wholesale Candy Gift Tins?

The oval design may suit confectionery manufacturers, gift brands and businesses developing special packaging collections. When ordering wholesale candy tins, buyers should plan quantities, artwork, lacquer finishes and sample approval together. Candy tin prices can change with these production choices. A nominal capacity of 3 liters does not guarantee a fixed weight in kilograms. Actual filling weight depends on the density of the sweets and how they fit inside the package.

Frequently Asked Questions - FAQ

What are the dimensions of the 3-liter oval candy tin?

The CR mold sheet lists a diameter of 247 mm, a length of 175 mm and a height of 75 mm. The general mold volume range is 3–4 liters.

Does this oval metal candy tin have a hinge?

No. The technical sheet specifies a slip-on lid without a hinge and a seamed metal body.

Can a custom logo be printed on the oval candy gift tin?

Offset printing is listed as an external finish option. Printing and lacquer details should be confirmed before production.
