Product Description

3 Liter Welded Side-Seam Nuts Tin

The 3 liter welded side-seam nuts tin RA is a metal food package designed to protect, transport, and present pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. For the RA mold, the technical sheet states a 215 mm diameter, 35 mm mold height, and an applicable volume range of 1.3–8.8 liters. The key difference of this nuts tin is its welded side-seam body construction. Seam coating options include lacquer inside and outside, powder lacquer inside with no outside lacquer, lacquer inside with no outside lacquer, powder lacquer inside with outside lacquer, no inside lacquer with outside lacquer, or no seam coating. A slip lid supports practical use, while the decorative bead gives the nuts tin a stronger visual detail. Manufactured by Kontensan, this nuts tin is suitable for brands looking for a nuts gift box, wholesale nuts tin, or distinctive metal nut packaging.

Key Features of the 3 Liter Welded Side-Seam Nuts Tin

Welded Side-Seam Body and Seam Coating Options

This product is included in Kontensan's Food Tin & Metal Packaging main category and the Nuts Gift Boxes subcategory. The RA nuts tin uses a welded side-seam body instead of a lock-seamed construction. Different lacquer and powder-lacquer combinations can be applied around the seam area, allowing the package to be adapted to different production requirements.

Decorative Bead and Slip Lid

The nuts tin uses a slip lid and includes a decorative bead. The product has no hole, handle, or hinge. Available metal thickness options are 0.24 mm and 0.25 mm. This combination gives the nuts tin a practical closure while adding a stronger shelf appearance for premium and export-oriented packaging projects.

Offset Printing and Coating Options

The nuts tin inner surface can be produced with silver lacquer, gold lacquer, spot lacquer, double lacquer, pigment lacquer, pigment lacquer + lacquer, double pigment lacquer, cream enamel lacquer, beige lacquer, clear lacquer, cream lacquer, decorative gold lacquer, or grey lacquer. The outer surface can use silver lacquer, gold lacquer, enamel, double lacquer, offset printing, clear lacquer, or decorative gold lacquer. These options allow the nuts tin to carry logos, product visuals, and brand colors for pistachio exports, premium nut ranges, and wholesale packaging.

Applications and Brand Value

The 3 liter welded side-seam nuts tin can be used for pistachios, hazelnuts, almonds, cashews, mixed nuts, and regional food products. Its broad metal surface provides a strong area for offset printing, while the decorative bead adds a more distinctive shelf appearance. The welded side-seam body and multiple seam coating options give the nuts tin additional technical flexibility. Kontensan combines these production options with serial manufacturing capability, making this nuts tin suitable for retail, export, corporate gift, and wholesale projects.

Frequently Asked Questions - FAQ

What are the dimensions of the 3 liter welded side-seam nuts tin?

The RA technical sheet lists a 215 mm diameter and 35 mm mold height. The alternative 3 L sample product is listed with an actual height of 87 mm.

What volume range is available for this nuts tin?

The technical sheet states an applicable volume range of 1.3–8.8 liters for the RA mold.

Is this nuts tin welded side-seam?

Yes. The technical sheet identifies the body construction as welded side-seam and lists several seam coating options.

Does this nuts tin have a decorative bead?

Yes. The technical sheet lists a decorative bead in the form / bead field.
